I&M Bank (Rwanda) PLC KN 03 AVE 9 | P.O. BOX Kigali, Rwanda

# **I&M BANK (RWANDA) PLC FINANCIAL STATEMENTS**

#### **EXPLANATORY NOTES TO THE FINANCIALS**

The Bank's net interest income experienced a 43 percent increase in the first nine months of 2024. This growth was primarily attributable to the expansion of the loans and advance portfolio, increased investment securities, and higher surplus liquidity.

The net fees and commissions income saw a triple digit increase of 118 percent, reaching Frw3.2 Billion, driven by increased payments activities and volume of cards and digital transactions.

Foreign currency trading income increased by 26 percent year on year, driven by an increased volume of foreign exchange transactions compared to the same period last year.

Operating income grew by 41 percent compared to the same period last year reaching Frw47.9 Billion. This increase was driven by payments, and foreign exchange trading activities.

Operating expenses increased by 9 percent to Frw23.7 billion, primarily due to ongoing investments in human capital, even as inflationary pressures subsided.

In terms of asset quality, net impairment losses on loans and advances were recorded at Frw6 billion for the nine-month period. The non-performing loans ratio was 4.84 percent.

The Bank's loans portfolio reached Frw 348 billion year-to-date, reflecting year-on-year growth across all business segments. Despite an uptick in the gross NPL ratio, asset quality remained sound.

The strong operating performance improved return on equity and return on assets to 19.35 percent and 2.27 percent respectively from 14.39 percent and 1.96 percent recorded in December 2023.
