## REPORT OF THE DIRECTORS FOR THE YEAR ENDED 31 DECEMBER 2023

The Directors have pleasure in submitting their annual report together with the audited financial statements of I&M Group PLC (“the Company”), its subsidiaries and its joint venture (together “the Group”) for the year ended 31 December 2023, which shows the state of affairs of the Group and of the Company.

### 1. Principal activities

The Group provides an extensive range of insurance agency, banking, financial and related services through its banking subsidiaries in Kenya, Tanzania, Rwanda, Uganda and a joint venture in Mauritius. The Companies that make up the Group are contained in Note 1 to the financial statements. The Company is listed on the Nairobi Securities Exchange and is regulated by the Capital Markets Authority and the Central Bank of Kenya as a Non-operating holding company.

### 2. Results/business review

The Group and Company results for the year are as follows:

	Group		Company	
	2023	2022	2023	2022
	KShs'000	KShs'000	KShs'000	KShs'000
Profit before income tax	16,680,326	14,992,332	7,269,660	6,149,719
Income tax expense	<u>( 3,335,107)</u>	<u>( 3,408,634)</u>	<u>( 88,441)</u>	<u>( 7,075)</u>
<b>Profit for the year</b>	<b><u>13,345,219</u></b>	<b><u>11,583,698</u></b>	<b><u>7,181,219</u></b>	<b><u>6,142,644</u></b>

The Group's profit after tax closed at KShs 13.4 billion, an increase of 15% compared to prior year. Revenue grew by 22% whilst loan provisions grew by 31% to cater for increased credit risk. Operating expenses were up by 25%. The Company's profit after tax closed at 7.2 billion, an increase of 17% compared to prior year. Dividend income grew by 14% compared to prior year. The Directors and employees re-affirm their commitment to achieving the laid down strategies and consequently delivering key value to shareholders.

The principal risks and uncertainties facing the Group and Company as well as the risk management framework are outlined in Note 4 to the consolidated and separate financial statements.

### 3. Dividends

The Directors recommend payment of a first and final dividend of KShs. 2.55 per share amounting to KShs 4,216,734,764 for the year ended 31 December 2023. A dividend of KShs 2.25 per share amounting to KShs 3,720,648,321 in respect of the year ended 31 December 2022 was paid on the 26 May 2023.

The dividend will be payable to shareholders registered on the Company's Register at the close of business on Thursday, 18 April 2024 and will be paid on or around Friday, 24 May 2024. The Register of Members will be closed from Friday, 19 April 2024 to Monday, 22 April 2024 (both days inclusive) for the purpose of processing the dividend.

### 4. Directors

The Directors who served during the year and up to the date of this report are set out on page 3.

# I&M GROUP PLC

## REPORT OF THE DIRECTORS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

### 5. Relevant audit information

The Directors in office at the date of this report confirm that:

- (i) There is no relevant audit information of which the Company's auditor is unaware; and
- (ii) Each director has taken all the steps that they ought to have taken as a director so as to be aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

### 6. Auditor

To note that Messrs KPMG Kenya continue in office as the Auditor by virtue of section 721 of the Companies Act, 2015 and subject to section 24(1) of the Banking Act (Cap. 488) and to authorise the Directors to fix the Auditor's remuneration for the ensuing financial year.

### 7. Approval of financial statements

The financial statements were approved and authorised for issue at a meeting of the Board of Directors held on **22 March 2024**.

## **STATEMENT ON CORPORATE GOVERNANCE**

### **Our Governance Framework**

#### **Introduction**

I&M Group Plc (the Group) is committed to maintaining the highest standards of corporate governance practices, ethics, and integrity in the successful execution of the Group's strategy across all its entities whilst providing value to our shareholders. This report details the Group's corporate governance framework and activities for the year 2023 and outlines key aspects of the Group's approach to corporate governance, including internal controls put in place fostering a positive environment where best corporate governance practices thrive.

#### **The Role of the Board**

The Board of Directors (the 'Board') strives to promote the Group's long-term success, deliver sustainable value to shareholders, and promote a culture of transparency and accountability. In doing so, it is responsible for setting out the Group's strategy and providing leadership and oversight on the execution of the strategy all whilst ensuring that the Group adheres to the high corporate governance standards as embedded within its corporate governance framework. The Board has zero tolerance for regulatory non-compliance across the Group and has explicitly conveyed this expectation to Management.

The Board carries out its mandate taking into consideration the best practices in corporate governance and the interests of the Group's stakeholders ie shareholders, customers, regulators and employees. To effectively achieve this, the Group has a comprehensive range of policies and procedures in place designed to help ensure that it is well managed, with effective oversight and controls.

The Board is cognisant of the fact that the Group operates in a dynamic and evolving environment. Therefore, the Board regularly reviews the Group corporate governance framework and policies in line with regulation, best practice and taking into consideration feedback from its esteemed shareholders. The Board, Management and employees are bound by the principles espoused in the framework. In setting up and reviewing the Corporate Governance framework, the Board is guided by the Capital Markets Authority (CMA) Code of Corporate Governance for Issuers of Securities to the Public, 2015 ('the Code'), the Central Bank of Kenya Guidelines on Corporate Governance, the Companies Act, 2015 and best practice.

#### **Governance Structure**

I&M Group is licensed by the Central Bank of Kenya as a non-operating holding company (NOHC). Whereas the different subsidiaries and joint venture entities are governed by the respective regulations applicable in their jurisdictions, the onus lies with the Group Board of Directors to ensure that compliance and best governance practices are applied across the Group. The Board therefore develops its corporate governance framework and policies which are then cascaded to the Group entities for adoption in line with the local applicable legislations. This practice is informed by the Group's commitment to excellence in business with the highest standards of integrity, accountability, and transparency.

The relationships between the Shareholders, Board and Board Committees is illustrated below:

#### Board Operations and Control

##### **Board Composition**

The Articles of Association of the company stipulate that the number of Directors shall not be less than seven and not more than twelve (excluding Alternate Directors). The Board Charter requires that the Board constitutes an appropriate balance of independent, non-executive and executive Directors. The current Board is composed of nine Directors, distributed as follows:

# I&M GROUP PLC

## STATEMENT ON CORPORATE GOVERNANCE (CONTINUED)

### Board Operations and Control (Continued)

#### **Board Composition (continued)**

\* There are no Alternate Directors.

#### **Directors' Independence**

The Board recognizes the value of independent directors who bring extensive external experience, independence and clarity of thought to board deliberations. The importance of independent directors is enshrined in the Articles of Association, the Board Charter and the Corporate Governance Policy which speak to the need for enhancing accountability and ensuring that Management and Executive Directors are discharging their mandate effectively. As outlined above, the Board is majorly comprised of independent directors who provide unbiased perspectives in the Board deliberations. The Board assesses the independence of directors annually as part of the Board's annual procedures. This process was enhanced in 2023 as recommended following the last governance audit. The tenure of independent directors is nine (9) years.

#### **Board Highlights:**

No of Directors: **9**

**56%** of Board members are independent Directors

**33%** of the Board members are women

Average age: **61**

No. of Board meetings in 2023: **4**

No. of Committee meetings in 2022: **11**

#### **Board Governance and Responsibilities**

The Board collectively sets the Group's strategy and oversees the execution and implementation against this strategy.

In performing its role, the Board:

- Oversees the overall conduct of the business.
- Engages in directing and approving the strategic plan and its implementation.
- Establishes appropriate systems and processes to ensure operations are conducted in an ethical, responsible and safe manner.
- Ensures effective audit, risk management and compliance systems.
- Analyses and reviews material acquisitions, divestments and capital expenditure.
- Sets delegated financial authority levels for the appointed signatories to the Company's bank accounts.
- Monitors financial performance and integrity of reporting.
- Ensures effective and timely reporting to shareholders.
- Safeguards and enhances the image and reputation of the Group and all related entities.
- Ensures corporate actions are compatible with societal objectives and expectations.
- Monitors the effectiveness of the corporate governance practices.

# **I&M GROUP PLC**

## **STATEMENT ON CORPORATE GOVERNANCE (CONTINUED)**

### **Board Operations and Control (Continued)**

#### **Separation of Roles and Responsibilities**

The Board Charter sets out the responsibilities of the Board as a collective, the Chairman, the Group Executive Director, individual Directors, and the Company Secretary.

The Board has put in place the necessary mechanisms to effectively discharge its roles and responsibilities. The specific roles and responsibilities to be discharged by the Board, its Committees, Chairman of the Board, Group Executive Director, other Directors individually and collectively as well as the Company Secretary are outlined in the Board Charter. The Board Charter is reviewed every two years to ensure relevance amidst changes in the Group's operating environment.

The Board Charter clearly distinguishes between the roles and responsibilities of the Group Chairman and Group Executive Director. The Chairman is tasked with the responsibility of effectively leading the Board, fostering a constructive governance culture and maintain relevant links between all stakeholders. The Group Executive Director is responsible for providing leadership and direction in the day-to-day operations of the Group directed toward implementation of the Group's long-term vision and strategy. The Group Executive Director ensures that the strategy and decisions of the Board are implemented in each of the Group's entity by ensuring that each CEO is accountable for the achievement of the strategic initiatives and financial performance. The independent Non-Executive Directors have the responsibility to constructively challenge Management and oversee the implementation of the strategy within the set risk control environment. The current Board Charter is available on the Group website ([www.imbankgroup.com](http://www.imbankgroup.com)).

#### **Meetings**

The Board meets at least once every quarter. For efficient management, the Board delegates its powers to Board Committees who also meet regularly. The Committees provide the Board with a quarterly report of their activities in accordance with their respective terms of reference. The quorum for the Board and Board Committee meetings is guided by the Articles of Association for the Board and the Terms of Reference for the Board Committees. Each meeting's proceedings are recorded by the Company Secretary/Joint Secretary and signed by the Chair.

The Board activities are informed by the workplan which sets the Board activities for the year. Each annual work plan is developed with extensive input from the directors to ensure that the objectives of the Board are met during the year's activities.

The Board recognises the importance of holding productive meetings and thus the agenda of the meetings are developed in line with the approved annual work plan. The agenda and attendant board papers are circulated in advance to allow the directors ample time to appreciate the information and facilitate meaningful and productive discussions during the meetings.

The Board Charter and the Committees' Terms of Reference were all reviewed in the course of 2023 and revised versions approved by the Board. The Board Charter and a summary of the Board Committees' Terms of Reference are available on the Company's website [www.imbankgroup.com](http://www.imbankgroup.com)

#### **Director Appointment**

The Board regularly reviews its composition to ensure compliance with the relevant laws, best practice and the best mix of skills that would provide effective and agile leadership to the Group. The Board Nomination, Remuneration and Governance Committee is tasked with reviewing the composition of the Board and nominating new members where vacancies arise between shareholder meetings. The Committee is guided by regulation and the applicable internal policies when vetting potential members of the Board. In considering potential directors, the Board seeks to not only identify candidates with appropriate skills, knowledge and experience to contribute to effective direction of the Group but also ensure achievement of diversity in its composition. Upon appointment, the directors are issued with letters of appointment which set out the terms and conditions of their appointment to the Board.

### STATEMENT ON CORPORATE GOVERNANCE (CONTINUED)

#### **Board Operations and Control (Continued)**

##### **Director Induction, Orientation & Continuous Professional Development**

The Board emphasises the importance of adequate training amongst the Directors. To facilitate this, the Board developed a comprehensive induction programme that each newly appointed Director must undergo as part of the onboarding process. The induction programme equips the directors with the context and necessary information required to serve on the Group Board. During the programme, the directors familiarise themselves with the Group's governance framework, constitutive documents, policies and regulation. The Directors also hold interactive sessions with the Senior Management of the Company to understand the day-to-day operations of the Group and the various entities.

The Board has unfettered access to the Company Secretary and Joint Secretary who advise the Board on their duties and responsibilities. Where necessary, the Board can seek advise externally from qualified experts and professionals in different areas.

To keep the board up to date with the emerging trends within the spheres the Group operate, the company organises regular continuous development programmes for the Directors. The continuous development programme covers areas such as corporate governance practice, audit and risk. Below is the list of the Groupwide trainings held within the year.

<b>Training Description</b>	<b>Date Undertaken</b>	<b>No. Of Hours</b>
Training on the recent Banking crisis	11 May 2023	7 Hrs
Training on Corporate Governance – Best Practices for Board Effectiveness		
Training on Business Continuity Management		
Training On Sustainability		
Audit & Risk Conference trainings: <ul style="list-style-type: none"> <li>• Future of Enterprise Risk Management</li> <li>• ALM &amp; Liquidity Risk Management</li> <li>• Data Privacy &amp; Data Protection</li> <li>• Cybersecurity &amp; Artificial Intelligence</li> </ul>	18 October 2023 & 19 October 2023	16Hrs

##### **Board Skills, Experience and Diversity**

The Group values diversity within its Board. Through the Board Nomination Remuneration & Governance Committee, the Board regularly reviews the Directors' skills and composition. In 2023, the Board recruited 3 new Board members who bring onboard a wealth of experience in the various Board and Committee discussions. Following the appointments, the Board is now compliant with best practice on gender diversity with at least one third of the Board consisting of women.

<b>Age range</b>	<b>No. of Directors</b>

## STATEMENT ON CORPORATE GOVERNANCE (CONTINUED)

### Board Operations and Control (Continued)

#### **Conflict of Interest**

The Group is guided by the Conflict of Interests Policy which binds all the directors to act ethically and in a manner consistent with the values of the business both individually and collectively.

Any Director who considers that they may have a conflict of interest in any matter concerning the Company is required to immediately declare the potential conflict of interest to the Board.

In order to monitor potential conflicts, the Company maintains a register of conflicts of interest which is updated regularly.

#### **Directors' Interests in the Company as of 31 December 2023**

<b>Name of Director</b>	<b>Number of Shares</b>	<b>% Shareholding</b>
Suresh B R Shah, MBS	174,947,573	10.58
Sarit S Raja Shah	37,595,103	2.27
Sachit S Raja Shah	37,152,231	2.25
Christopher Kihara Maina	448,112	0.03

#### **Company Secretary**

The Company has a Company Secretary and appointed a Joint Secretary with effect from 11 May 2023. The Company Secretary and Joint Secretary are members in good professional standing with the Institute of Certified Secretaries of Kenya (ICS-K) and appointed by the Board. They are together responsible for the effective implementation of the Governance Framework and monitoring compliance with the Board procedures and statutory requirements. They are also responsible for facilitating timely flow of information within the Board and its Committees and between the Directors and Management as well as overseeing induction of new Directors and facilitating ongoing professional development of Directors. In consultation with the Chairman, they ensure regular assessments on the effectiveness of the Board and its Committees while their effectiveness is similarly assessed by the Board as part of the annual Board performance evaluation process.

#### **2023 Key Activities**

The Board undertook, inter alia, the following activities:

##### **Finance**

- Reviewed and approved the Group consolidated forecasts for 2023
- Reviewed and approved the annual Audited Financial Statements for the year ended 31<sup>st</sup> December 2022 and publications thereof.
- Received the Management Letter from external auditors and reviewed the external audit report
- Approved final dividend for FY 2022.
- Reviewed on a quarterly basis the unaudited consolidated Group Management Accounts.
- Reviewed on a quarterly basis, performance of the banking entities within the Group as compared to their respective peer banks.
- Reviewed on a quarterly basis, financial performance of each Group entity against the approved annual budgets.

##### **Strategy**

- Reviewed strategic plans and objectives for the Group and subsidiaries and status of implementation against the strategic plan
- Reviewed Share Price Performance and Trading Statistics reports quarterly
- Reviewed quarterly updates from the banking and non-banking subsidiaries in the Group
- Reviewed the I&M@50 Marketing & Communication Plan
- Discussed and approved the iMara 3.0 strategy for 2024 - 2026.

- Review Conflicts of Interest declared and register of interests disclosed
- Reviewed Report on performance of the Company's shares and trading statistics
- Reviewed reports on changes in shareholding
- Reviewed and approved the agenda and notice for the Annual General Meeting
- Received updates from the Board Committees
- Approved its annual calendar of meetings for 2024
- Assessed the independence of the Independent Non-Executive Directors and confirmed that they continued to be independent as per the criteria of independence outlined by CMA
- Reviewed the annual board evaluation reports for the year 2022.
- Reviewed results from the Legal & Compliance and Governance Audit including progress on implementation of the actions agreed
- Reviewed the Board & Board Committee composition
- Reviewed and approved changes to the the Directors' Remuneration
- Reviewed changes in the legal and regulatory framework
- Approved the appointment of new Share Registrars
- Reviewed and approved the annual 2024 Board work plan
- Reviewed the director development plan for 2024
- Approved various Group policies as recommended by the Committees

##### **Board Committees**

The Board has delegated authority to three Board Committees to assist the Board to effectively discharge its mandate. Each Committee has in place Terms of Reference approved by the Board that outline its responsibilities. The Terms of Reference are reviewed annually. The Board regularly reviews the membership of the Committees.

A summary of the composition, responsibilities and key activities achieved by the Board Committees is outlined below:

#### **(i) Board Audit and Risk Management Committee (BARMC)**

Rose Wanjiru Kinuthia (Chairperson)

##### **Members:**

Ms. Rose Kinuthia, Ms. Risper Ohaga & Mr. Naval Sood.

The BARMC consists of three independent directors . It is Chaired by an Independent Director.

## STATEMENT ON CORPORATE GOVERNANCE (CONTINUED)

### Board Operations and Control (Continued)

#### **Board Committees (continued)**

##### **(i) Board Audit and Risk Management Committee (BARMC) - continued**

###### **Responsibilities:**

The key responsibilities of the BARMC are to assist the Board in fulfilling its statutory and fiduciary responsibilities, by providing an objective and independent review of the effectiveness of the external reporting of financial information and the internal control environment of the Group. The BARMC is also responsible for the oversight of the Group's risk management framework and reviewing the Group's risk appetite from time to time.

###### **2023 Activities: BARMC held six scheduled meetings in the year.**

The Committee undertook, inter alia, the following activities:

- The Committee reviewed the Group Audit Strategic initiatives for FY 2023.
- The Committee reviewed its Terms of Reference to amend the provision on membership as recommended from the Governance Audit and to expand its scope to specifically include oversight on ICT risk and Compliance risk.
- Approved and oversaw the implementation of the annual internal audit plan for FY 2023
- Reviewed the audited financial statements for FY 2022 and quarterly unaudited accounts for consideration and ultimate approval by the Board
- Reviewed the internal audit reports for audits undertaken during the year
- Review of Group Internal Audit policy framework and Group Internal Audit Charter
- Reviewed risk reports including Group Cyber Risk report, Group ICT Risk report, Group Risk, Group Compliance, Group Audit, ESG implementation, Group risk maturity and Data protection reports to monitor significant key risks
- Oversaw critical cybersecurity activities in the year.
- Reviewed the Business Continuity Plans (BCP) and Disaster Recovery Plans (DRP) including periodic reports from Group entities on review of their BCP & DRP.
- Received and reviewed reports from BAC of Group entities with regard to regulatory inspection reports.
- Reviewed and recommended various policies for approval by the Board
- Provided oversight on the annual Group Audit & Risk Conference and actions agreed thereof
- The Committee held two separate meetings with the external auditors, KPMG, without Management present and is satisfied that the auditors remain independent.

## STATEMENT ON CORPORATE GOVERNANCE (CONTINUED)

### Board Operations and Control (Continued)

#### **Board Committees (continued)**

#### **(ii) Board Nomination, Remuneration and Governance Committee (BNRGC)**

Dr A Nyambura Koigi (Chairperson) w.e.f from 1st August 2023. Prior to that, this Committee was chaired by Mr. Michael Turner.

#### **Members:**

Dr A Nyambura Koigi, Mr. Oliver Fowler, Mr. Sarit S. Raja Shah & Mr. Kihara Maina.

The BNRGC consists of two Independent Directors and two Executive Directors. It is chaired by an Independent Director.

The Company has received an exemption from the Capital Markets Authority on the requirement to have three Independent Directors on each of the BARMC and BNRGC.

#### **Responsibilities:**

The BNRGC assists the Board in fulfilling its responsibilities by undertaking structured assessment of candidates for membership of the Board and Board Committees, and the establishment of an appropriate harmonized framework for remuneration of the Board members across the Group, in line with clearly defined remuneration principles. The Committee also provides oversight on governance-related matters at the Group level such as Board succession planning, induction for new board members, assisting the Board in reviewing the mix of skills and expertise of board members, reviewing the performance and effectiveness of the Board through the board evaluation process and generally providing oversight in relation to the general governance of the entities within the Group. This is to ensure that there is continued compliance with the corporate governance laws, regulations and best practice.

In addition, the Committee provides oversight in relation to the development and implementation of governance related policies at the Group level and ensures compliance with the prevailing corporate governance regulations and principles.

#### **2023 Activities: BNRGC held two scheduled meetings in the year**

The Committee undertook, inter alia, the following activities:

- Recommended to the Board to approve the Committee's revised Terms of Reference
- Reviewed the training and development reports for the Directors in the Group entities
- Reviewed results of the annual board evaluation for FY2022 including the Committee's annual evaluation report.
- Reviewed board composition and succession for the entities within the Group
- Reviewed the Group's HR metrics including headcount and attrition trends, talent management, leadership development, compensation and benefits and employee engagement survey outcome
- Reviewed the outcome from the Group's Job Evaluation & compensation review exercise.
- Oversight on culture including a review of the progress made on the Group's Culture Transformation Programme (Pamoja).
- Reviewed the Group's reward framework and approved revision of Directors' remuneration
- Reviewed progress on remedial action from the legal & compliance and governance audits
- Received the management letter and audit opinion from the Legal & Compliance Auditor with respect to FY2022.
- Received the management letter and audit opinion from the Governance Auditor with respect to FY2022.
- Approved the revised Board Director Induction Program

#### (iii) Board Strategy Steering Committee (BSSC)

Mr Naval Sood. (Chairman) w.e.f from 15th August 2023. The former Chair of the Committee, Mr. Sulemain Kiggundu Jr. resigned from the Board w.e.f 15 June 2023

##### Members:

Mr. Sarit S. Raja Shah, Mr. Naval Sood & Mr. Kihara Maina

The BSSC consists of one Independent Director and two Executive Directors.

The BSSC assists and provides guidance to the Board in fulfilling its responsibilities by considering matters pertaining to the Group's overall long-term strategic direction as well as corporate objectives. The BSSC assists the Board in review of the optimum level of the Group's capital structure to support the Group's strategic and financial goals and review the Group's major strategic and investment decisions (including Merger & Acquisition transactions).

##### 2023 Activities: BSSC held four scheduled meetings in the year

The Committee undertook, inter alia, the following activities:

- Reviewed the Group's Strategy and performance against the Balance Scorecard
- Recommended and monitored efforts to improve regional synergies
- Monitored the implementation of iMara 2.0 Strategy across the Group entities.
- Reviewed the Group's digital ecosystem partnerships strategy.
- Received reports from the Making Banking Great Steering Committee.
- Reviewed the iMara 3.0 2024-2026 strategy.
- Approved the Committee's workplan for the year 2024
- Reviewed the Committee's Terms of reference.

## STATEMENT ON CORPORATE GOVERNANCE (CONTINUED)

### Board Operations and Control (Continued)

#### **Board Evaluation**

The Board has established a mechanism for evaluating the performance of the Board, Board Committees, Individual Directors, Executive Directors and Company Secretary and the assessment of the Directors' independence. This is done annually as part of the Board evaluation. The process is reviewed regularly to enhance its effectiveness. In 2023, when undertaking the board evaluation with respect to FY2022, the Board used the revamped surveys developed with input across the subsidiaries. The directors' feedback informs the Board of areas of improvement and the development of the directors training plan for the subsequent year. The Board submits the results of the survey to the Central Bank of Kenya in line with the CBK Prudential Guidelines. In line with the CMA regulations, a legal and compliance audit is being undertaken with respect to FY2023.

#### **Shareholder and Stakeholder Engagement**

A key element in the Group's culture is the continuous engagement with its stakeholders. I&M recognizes and appreciates that engagement with, and active cooperation of its stakeholders, is essential for the Group's strong business performance on a sustainable basis, as well as to achieve and maintain public trust and confidence. The Group's stakeholder management policy is founded on the principles of transparency, active listening, and equitable treatment that favours a consultative and collaborative engagement with all stakeholders.

The Group engages both formally and informally throughout the year to:

- develop and promote a good understanding of stakeholder needs, interests, and expectations
- provide guidance on how the Group should engage with its stakeholders to strengthen and maintain relationships with them
- identify the opportunities and threats arising from stakeholders' material issues; and
- assist with strategic, sustainable decision-making.

The Group constantly reviews its processes with regards to maintaining relationships with the shareholders. In 2023, the Group appointed Image Registrars Ltd as the new share registrars. The new registrar in conjunction with Management has improved efficiency in addressing any issues raised by the shareholders using technology in providing the shareholders with a seamless experience whilst giving management timely feedback.

All I&M Group employees are accountable for managing relationships and meeting expectations of internal and external stakeholders within their areas of responsibility. Should a stakeholder not be satisfied with the service or assistance that they receive from their I&M point of contact, there are several opportunities that allow for anonymity (if desired) as well as independence to ensure a voice for concerned stakeholders. These include our client call centre that is the first point of call for all clients' requests and the section "Contact us" on the Group's corporate website.

Concerns raised by stakeholders are monitored on an ongoing basis for compliance by the Group Risk and Compliance Team and by the Board Audit and Risk Management Committee.

#### **Annual General Meeting**

I&M recognizes the importance of transparency and accountability to all stakeholders and in particular to the shareholders. The Company has various channels and mechanisms to communicate and engage with shareholders in addition to the Annual General Meeting. These include availing information on the website, publication of quarterly financial results and holding regular investor briefings. The Company remains committed to ensuring open communication with its shareholders and observing the highest standards of governance and shareholder communications.

Shareholders holding a total of 1,156,445,386 ordinary shares in I&M Group PLC registered and participated in the 2023 Virtual Annual General Meeting representing 69.93% of the total issued ordinary shares of the Company.

# I&M GROUP PLC

## STATEMENT ON CORPORATE GOVERNANCE (CONTINUED)

### Shareholder and Stakeholder Engagement (Continued)

#### **Annual General Meeting (continued)**

To facilitate shareholders participation in the virtual AGM, shareholders were provided the options of a web portal and an unstructured supplementary service data (USSD) to enable them to register, attend the meeting, ask questions and vote. The key items deliberated during the AGM were as per the AGM notice published on 28th April 2023.

The Shareholder Communication Policy sets out the processes that the Company has put in place to facilitate and encourage participation by shareholders. This policy is aimed at nurturing the loyalty and confidence of the Company's shareholders through frequent and forthright communication, both directly to shareholders and indirectly through analysts and the media.

The Company seeks to ensure that interaction with each investor meets the highest levels of professionalism and quality. A copy of the policy is available on the Group's website (<https://www.imbankgroup.com/>). The following contacts are also available on the website for shareholders to contact the Group: 24-hour Call Centre: +254 20 322 1000, Email [investor-relations@imgroup-plc.com](mailto:investor-relations@imgroup-plc.com).

The Board is committed to liaising with the investment community including institutional investors, brokers, analysts and rating agencies through investor briefing sessions and presentations discussing performance and providing information on the direction the Company is taking. The investor relations function collects feedback and communicates information relevant to the Group operations and strategy to the various stakeholders including shareholders through various channels. Financial information on the Company is made available on the Company's website and latest results being provided on a quarterly basis in national publications and the Company's website.

I&M Group is committed to providing shareholders with information that is timely, of high quality and relevant to their investment, and to listen and respond to shareholder feedback. To this end Group transitioned its share registry services to Image Registrars during the year. All shareholder queries, application for registration of transfer of shares of the Company, immobilization of shares and dividend queries are handled by the Company's appointed shares registrar – Image Registrars Ltd 5th Floor, Absa Towers Loita Street Nairobi Kenya Phone: +254 709 170 000 P.O.Box: 9287 - 00100 GPO, Nairobi, Kenya, Email: [info@image.co.ke](mailto:info@image.co.ke).

The table below sets out the timelines of the key events and shareholder communication forums during the year.

<b>Event/communication</b>	<b>Date</b>
Financial year end	31 December
Release of full year results	30 March 2023
Investor briefing full year 2022 results	30 March 2023
Announcement of the Annual General Meeting	28 April 2023
Annual General Meeting	25 May 2023
Release of Quarter 1 Financial results	29 May 2023
Release of Half Year Financial results	24 August 2023
Investor briefing Half Year 2023 results	30 August 2023
Release of Quarter 3 Financial results	23 November 2023

In addition, , the Group published announcements and notices in relation to (i) the changes on the Board around appointment, resignation and retirement of Directors, (ii) appointment of the joint secretary, (iii) change of share registrar and (iv) the proposed sale of 167,526,000 shares of the Company held by British International Investments to East Africa Growth Holdings.

## STATEMENT ON CORPORATE GOVERNANCE (CONTINUED)

### Shareholder and Stakeholder Engagement (Continued)

#### **Boards of Subsidiary Companies**

The entity Boards have ultimate responsibility for their local business performance and are guided by regulations within the respective jurisdiction and the Group Minimum standards.

The Group Executive Office is headed by the Group Executive Director (GED). He is ably supported by the Regional Chief Executive Officer, Group Nominated Directors and other team members in the Group Executive Office.

Each banking entity in the Group has set up various Board Committees to oversee the conduct of its business. The key ones include the following:

#### Board Audit Committee (BAC)

The BAC assists the Board in fulfilling its responsibilities by reviewing the financial condition of the Bank, its internal controls, performance and findings of the Internal Audit functions. Two BAC meetings are held in each year independent of management giving the internal and external auditors an opportunity to raise matters directly with members of the BAC.

#### Board Risk Committee (BRC)

The BRC, through the risk management function, is responsible for translating the Risk Management Framework established by the Board of Directors into specific policies, processes and procedures that can be implemented and verified within the different business units, so that risks faced by the Bank are adequately considered and mitigated.

#### Board Credit Committee (BCC)

The BCC is responsible for review of the overall lending policy, conducting independent loan reviews, delegation and review of lending limits. It also ensures compliance with all statutory and regulatory requirements and is responsible for the overall management of credit risk. The Credit Risk Management Committee (CRMC) assists the BCC in its role.

#### Board Procurement Committee (BPC)

The BPC is responsible for reviewing and approving significant procurement proposals as well as proposed consultancy assignments and unbudgeted capital expenditure. In addition, the BPC also vets any agreements with and procurement from related parties.

#### Board Nomination and Remuneration Committee (BNRC)

The BNRC is responsible for assessment of Board requirements for non-executive directors, induction programs for new Directors and development programs to build individual skills and improve Board effectiveness, Board succession planning, Performance evaluation of the Board of Individual Directors and of the senior executives, setting remuneration policies & strategic objectives of senior executives, providing oversight over HR matters and input into HR policies as appropriate.

# I&M GROUP PLC

## STATEMENT ON CORPORATE GOVERNANCE (CONTINUED)

### Shareholder and Stakeholder Engagement (Continued)

#### **Relationship between Board and Management**

#### **Group Management Committees:**

##### Group Executive Committee (GEXCO)

The Group Executive Committee (GEXCO) is the apex Group level management committee whose main task is to ensure successful delivery of the Group's strategy, drive overall Group performance and leverage group synergies. The committee is also responsible reviewing recommendations of its subcommittees such as the top Group risks, Group resourcing requirements and implementation of best practices.

##### Group Assets & Liabilities Committee (GALCO)

The Group Assets & Liability Committee reviews the future expectations and the potential impact of interest-rate movements, liquidity constraints, foreign-exchange exposure and capital adequacy across the region of the Group's operations and supports the subsidiary banking entities in monitoring and reviewing the most appropriate strategy for each individual entity in terms of the mix of assets and liabilities.

##### Group Credit Management Committee (GCMC)

This is a Group level committee that supports the Group EXCO, the Board of Directors and Board Credit Committees of each subsidiary in their credit decision duties and reviewing of credit risk management across the Group. The committee is responsible for reviewing the Group credit policy & framework, the credit risk appetite parameters and advising the respective subsidiary Board Credit Committees on complex, high value, or new industry exposures as per agreed threshold.

##### Group Risk Management Committee (GRMC)

The Group Risk Management Committee promotes sound risk management practices and monitors overall Group exposure for all risk categories across all entities. The Committee is responsible for reviewing and approving the Group Enterprise Risk Management Framework as well as providing advice on international risk management best practices and emerging risks that might affect the Group, together with recommendation on mitigation and/or remedial actions.

# I&M GROUP PLC

## STATEMENT ON CORPORATE GOVERNANCE (CONTINUED)

### Shareholder and Stakeholder Engagement (Continued)

#### **Subsidiary Management Committees**

Each banking entity in the Group has set up various Management Committees. The key ones include:

#### Executive/Management Committee (EXCO/MANCO)

This committee provides the link between the Board, Top Management and Department Heads. It is responsible for reviewing the individual Bank's corporate and Strategic objectives, business performance review of progress of special projects and to strategize on the way forward in line with market dynamism / conditions. The committee also considers and plans the required action, including assessment of impact thereof on the agreed Corporate Objectives for the year on significant matters agreed upon at the quarterly Board meetings.

#### Assets & Liabilities Committee (ALCO)

The Assets & Liability Committee is a sub-committee of the Board Risk Management Committee responsible for setting, monitoring and reviewing financial risk management policy and controls including devising the most appropriate strategy for each individual Bank in terms of the mix of assets and liabilities and this is based on the committee expectations of the future and the potential impact of interest-rate movements, liquidity constraints, foreign-exchange exposure and capital adequacy.

#### Credit Risk Management Committee (CRMC)

CRMC is the link between the Board and Management in terms of implementing the credit and lending policies of each Bank. It is responsible for the sanction of credit proposals in line with the Bank's Credit Policy, effective management and follow-up of all credit-related matters and review of Non-Performing Accounts. The Non-Performing Accounts Committee and the Card Centre Credit Appraisal Committee assist the CRMC in its role.

#### Risk & Compliance Management Committee (RISKCO)

RISKCO is primarily responsible for integrating risk management into the organisation's goals. RISKCO defines risk review activities regarding the decisions, initiatives, transactions and exposures and prioritises these before presentation to the Board. The committee also periodically reviews and assess the effectiveness of the Bank's enterprise-wide risk assessment processes and recommend improvements, where appropriate.

#### Human Resources Committee (HRC)

HRC assists the Board in fulfilling its Human Resource Management responsibilities with due recognition to this key resource. HRC oversees implementation of all major HR initiatives, rendering support and guidance as appropriate. It also facilitates periodic review of the Bank's HR policies and practices to ensure the Bank remains competitive and able to attract and retain competent talent for its business.

# I&M GROUP PLC

## STATEMENT ON CORPORATE GOVERNANCE (CONTINUED)

### Ethics & Social Responsibility

#### Code of Conduct

The Group is bound by its Code of Conduct. The Code applies to the Directors and employees in their daily duties. The Code of Conduct encompasses, inter alia, matters touching upon safety and health, environment, compliance with laws and regulations, confidentiality of customer information, financial integrity and relationships with external parties. This Code of Ethics is reviewed periodically, and amendments are incorporated if necessary.

Over and above the Group Code of Conduct, the Group introduced the Third Party Code of Conduct. The Group expects Third Parties to uphold the same levels of integrity and business conduct both from their personnel and to anyone outside their organisation that is engaged in the provision of services for or on behalf of the Group and its subsidiaries. The policy establishes guidelines and the Group's expectations with regards to business conduct for third parties engaged by or having any form of contractual obligations with the Group or any of its subsidiaries.

#### Conflicts of Interest

The Board has in place a policy to provide guidance on what constitutes a conflict of interest. The Board expects its members, both individually and collectively, to act ethically and in a manner consistent with the values of the business. Each director is obligated to, as far as practically possible, minimize the possibility of any conflict of interest with the Company or the Group by restricting involvement in other businesses that would be likely to lead to a conflict of interest. Where any director considers that they may have a conflict of interest in any matter pertaining to the Group or being considered at a Board or Committee meeting, they are required to immediately declare the potential conflict for the Board to review. The Director will excuse themselves from the relevant discussions and will not exercise their right to vote in respect of such matters. Directors also declare their pecuniary interests annually. At the Group subsidiaries, policy is directed not only to Directors but to all Senior management and employees who can influence any decisions of these subsidiaries.

#### Insider Trading & Related Party Transactions

The Group Insider Trading Policy prohibits Directors, staff of all Group entities and contractors who have or may have access to material non-public information regarding the Company from:

- Market manipulation - artificially inflating or deflating the price of a security or otherwise influencing the behaviour of the market for personal gain
- False Trading and Market Rigging – dissemination of favourable or unfavourable information likely to induce the subscription, sale or purchase of shares by other people, or raise, lower or maintain the market price of shares
- Fraudulently inducing trading in securities
- Front Running - entering into a securities trade to capitalize on advance, non-public knowledge of a large ("block") pending transaction that will influence the price of the underlying security
- Obtaining gain by fraud
- Communicating unpublished price-sensitive information to other people.

The policy also prohibits anyone having Inside Information relating to the Group from buying or selling the entity's securities, except within certain stipulated open periods.

Insiders handling price sensitive information are subjected to preclearance restrictions which requires them to declare their intention to purchase or sell Company's securities before entering into a transaction.

The Board Nomination, Remuneration and Governance Committee has oversight on insider trading and is made aware of insider trades as well as any breach of the Insider Trading Policy through semi-annual returns.

# I&M GROUP PLC

## STATEMENT ON CORPORATE GOVERNANCE (CONTINUED)

### Ethics & Social Responsibility (Continued)

#### Insider Trading & Related Party Transactions (continued)

The Group Board has also adopted a related party policy that outlines how to deal with related parties in a transparent manner and at arm's length on related party transactions. Related parties, whether body corporate or natural persons, fall into two main groups:

- those that are related to the Group because of ownership interest; and
- those that related otherwise, such as directors and senior officers who may also have some ownership interest in the Group.

In line with the above-mentioned guideline, the Board has adopted a policy which sets out the rules governing the identification of related parties, the terms and conditions applicable to transactions entered into with them. All related party dealings/transactions are disclosed under Note 37.

#### Whistle Blowing Policy

The Group is committed to the highest standards of openness, probity, and accountability. In line with this commitment, the Group encourages all its stakeholders to come forward and report any unethical or illegal behaviour that in any way, shape, or form, relates to the operations of the Group.

The Group has in place a Whistle blowing policy and appropriate mechanisms to demonstrate its commitment to the highest standards of openness, probity and accountability. This policy is reviewed regularly and updated accordingly. The whistleblowing process and tools available enable key stakeholders of the Group to voice concerns in a responsible and effective manner. This policy was revised in 2022 to expand the scope of application to include the Group and all its subsidiaries, Directors, staff, contractors, agents, vendors, sponsors, customers and shareholders of the Group as well as the general public, in line with the recommendations from the previous governance audit. In 2022, the Bank held a staff plenary session sensitizing the employees on the whistleblowing process and tools at their disposal. These mechanisms enable key stakeholders of the Group to voice concerns in a responsible and effective manner.

The policy is designed to encourage and facilitate raising concerns internally and externally on areas of real or perceived malpractice or impropriety. The policy is reviewed regularly to ensure relevance with best practice. The policy aims to:

- Encourage all stakeholders to feel confident in raising their apprehensions and to question any act that may raise concerns about practice that may bring disrepute to the Group and or cause financial or other losses to the Group and or any malicious act that may adversely affect the Group or its subsidiaries, its staff and stakeholders.
- Provide avenues for stakeholders to raise those concerns and receive feedback on any action taken
- Reassure stakeholders that they will be protected from possible reprisals or victimization if they have reasonable belief that they have made any disclosure in good faith.
- Minimize the Group's or its subsidiaries' exposure to the damage that can occur when employees and key stakeholders circumvent internal mechanisms.
- Inform stakeholders that the Group and subsidiaries take a serious stand on adherence to the code of conduct and the various policies in place.

The Whistleblowing Reports are regularly reviewed and discussed by the Board Nomination Remuneration and Governance Committee. The Whistle blowing policy is also available on the Company website.

# **I&M GROUP PLC**

## **STATEMENT ON CORPORATE GOVERNANCE (CONTINUED)**

### **Ethics & Social Responsibility (Continued)**

#### **Sustainability & Corporate Social Responsibility (CSR)**

The Group is conscious of its responsibility to provide long term sustainable value to its stakeholders and the communities it serves. In 2023, the Group joined the UN Global Impact in furtherance of its commitment towards sustainability as a global citizen. The Group is currently developing the Sustainability framework that will be adopted across the Group in line with the iMara 3.0 2024-2026 strategy.

The Group, through the I&M Foundation, has put in place guidelines that aid in carrying out its Corporate Social Responsibility mandate at each entity's level. The Group, seeks to deepen its relationship with various stakeholders while providing opportunities to its staff members to participate in various CSR activities, with a focus towards environmental conservation, education and skills development, health and education. I&M Kenya supported the Foundation by allocating 2% of its Profit Before Tax approximately Kshs 245 million to the Foundation's activities.

#### **Accountability, Risk Management and Internal Controls**

The Group has an integrated risk management framework in place to identify, assess, manage and report risks as well as risk adjusted returns on a consistent and reliable basis. Further, the Group maintains a keen focus on ensuring that the risk management framework at a Group level is robust enough to safeguard the business processes and products of each entity.

Given that risk taking is core to the Group's innovation capacity and ultimately its entrepreneurial success, the Group's approach to risk management is characterized by strong risk oversight at the Board level and a strong risk management culture at all levels and across all functions. Such an approach supports and facilitates decision making processes across the Group.

The risk management framework is set so that risks identified are adequately considered and mitigated:

- The Board of Directors at the Group and individual entity level assume the ultimate responsibility for the level of risks taken and are responsible for overseeing the effective implementation of the risk strategies;
- The organizational risk structure and the functions, tasks and powers of the committees, staff and departments involved in the risk processes are continuously reviewed to ensure their effectiveness and the clarity of their roles and responsibilities;
- Risk issues are taken into consideration in all business decisions. Measures are in place to develop risk-based performance measures and this is being supplemented by setting risk limits at the company level;
- Risk management has been integrated into various management processes such as strategic planning, annual budgeting and performance measurement;
- Identified risks are reported in a transparent and timely manner.
- Appropriate and effective controls exist for all processes.

Each entity in the Group endeavours to be compliant with best practices in its risk management and uses the Committee of Sponsoring Organisations of the Treadway Commission "COSO" framework as a reference and adopts compatible processes and terminology.

An area of increased focus for the Group is ESG (Environment, Social, Governance) given the growing global emphasis on climate change. The Groups' risk management framework has been aligned to ensure formulation and implementation of an ESG framework to focus on this risk in line with international best practice, the guidance on climate-related risk management issued by the Central Bank of Kenya and Nairobi Stock Exchange (NSE) manual guiding listed companies on measuring and reporting ESG matters.

# I&M GROUP PLC

## STATEMENT ON CORPORATE GOVERNANCE (CONTINUED)

### Accountability, Risk Management and Internal Controls (Continued)

#### Environment, Social, Governance (ESG)

I&M Group PLC and its subsidiaries purpose to go beyond and understand how positively our solutions impact the society. Recognizing environmental, governance and social dynamics are key transformation and creation of a better world for present and future generations. As such, I&M Group and its subsidiaries acknowledge our responsibility in transition to a more sustainable world that takes cognizance of the Environmental, Social, and Corporate Governance (ESG) initiatives in our overall business strategy, products, services, and operations. The Group recognizes ESG as an all-inclusive process that require commitment and support from our employees, partners, shareholders, suppliers, the market, and customers. We share the belief that our business can help promote environmental preservation and generate social values. Therefore, we aim to elevate capacities, and create effective solutions in which our ESG agenda be the basis of our business model and data-driven decision-making processes.

The ESG policy affirms the Group's commitment to reinforce and integrate Environmental and Social Responsibility in our businesses, activities, and relationship with both internal and external stakeholders. The policy addresses management of ESG risks and opportunities. I&M Group is profound in encouraging our business associates, and stakeholders to operate in line with this ESG principles and to advance ESG-Related ventures. Through our collaborative-based approach, to create risk intelligent and empowered business growth, we aim to adopt corrective actions when needed, and support our clients, and businesses towards becoming more resilient, sustainable, and ethically responsive.

The policy ensures the formulation and implementation of an ESG framework in line with international best practice, the guidance on climate-related risk management issued by the Central Bank of Kenya and Nairobi Stock Exchange (NSE) manual guiding listed companies on measuring and reporting ESG matters.

#### Business Continuity Management

The Group regularly revamps the BCM Policy to keep up with the changes in the business environment and technology. The policy sets the minimum requirements to be implemented to minimize the impact of operational disruptions and ensure business continuity for critical services and products. The subsidiaries regularly present their BCM plans to their respective Boards in line with the Group policy. Entities within the Group continued to provided services seamlessly to all our partners focusing on transitioning most service to digital platforms. The Group's strategic investments in technology with the aim of bolstering our capabilities allowed us to not only improve our operations but also to strengthen the relationships we have with our clients, prioritising client centricity and proactively anticipating client needs.

#### Compliance

The Board ensures that laws, rules and regulations, codes and standards applicable to the Group have been identified, documented and observed. Each of the Banking entities within the Group have independent Compliance functions to continuously monitor the Company and its subsidiaries' compliance with applicable laws, rules and regulations, codes and standards to provide assurance in this respect to the Board on a quarterly basis.

All policies and procedures are tailored to ensure that the Group processes are fully compliant with all relevant laws and regulations.

Additionally, the Board receives a report at each of its scheduled meetings on changes to the legislation and regulatory framework and evaluates its impact in addition to ensuring that the Company puts in place the appropriate processes to ensure compliance from the effective date.

# I&M GROUP PLC

## STATEMENT ON CORPORATE GOVERNANCE (CONTINUED)

### Accountability, Risk Management and Internal Controls (Continued)

#### Risk Based Internal Audit and Assurance

While the Board is responsible for the overall risk management and internal control systems, oversight of the Group's risk management process has been delegated to the Board Audit and Risk Management Committee. Every banking and regulated entity within the Group has established an independent Internal Audit function.

The respective Boards and Management set out the mandate for Internal Audit, defining its purpose, authority and responsibilities. The respective Boards ensure that the Chief Audit Executive in each entity is not responsible for any other function in the entity and functionally reports directly to its Board Audit Committee.

The Internal Audit function provides an independent assurance to its respective Board and Management that the governance, risk management and control processes are adequate and effective to enable the organization meet its objectives.

In addition, the Group has set up the Group Internal Audit function to provide independent assurance to the Company's Board through the Board Audit & Risk Management Committee and to, inter alia:

- Highlight high risk areas as reported by internal audit, External Auditors and Regulators for the respective group entities and action being taken by the respective entity Management and Board Audit Committee;
- Bring to the attention any areas of concern on the adequacy and effectiveness of the respective entity processes for controlling its activities and managing its risks in the areas set forth under the scope of work that may require group direction; and,
- Provide quality assurance on the audit activity deployed in the respective entities.

#### External Auditors

The Board has put in place mechanisms to ensure that external auditors:

- Maintain a high standard of auditing;
- Have complete independence;
- Have no pecuniary relationship with the auditee entity or a related party;
- Bring to the attention of the Board and management any matters that require urgent action. To facilitate this, the Board Audit and Risk Management Committee frequently meets with the external auditors without Management to discuss pertinent issues relating to the audit.

Audit and other fees paid to the external auditors during the year have been separately disclosed under Note 14 of the financial statements.

#### Capital Markets Authority (CMA) Corporate Governance Assessment Report for the year ended 31 December 2022

The Capital Markets Authority assessed the status of implementation of the CMA Code of Corporate Governance Practices for Issuers of Securities to the Public 2015, by I&M Group Plc for the year ended 31 December 2022. The overall rating awarded to the Company was a Leadership Rating of 91% (FY 2022) which represents an incremental improvement from 88% (FY 2021) and 87%% (FY 2020). This improvement is a testament to the Board's commitment to sound corporate governance practices.

The Group regularly undergoes legal and compliance audits with the latest audits having been done in 2022. The Board closely monitors the corrective action plans highlighted in the audits. The Group is scheduled to undergo Legal and Compliance Audits in FY2024.

# I&M GROUP PLC

## STATEMENT ON CORPORATE GOVERNANCE (CONTINUED)

### Accountability, Risk Management and Internal Controls (Continued)

#### Information Technology (IT) Policy

The Group acknowledges that ICT is essential for its continued successful operation that the availability, integrity and confidentiality of its information systems and associated data are maintained, in a cost-effective manner and at a level that is appropriate to its business needs. The need for such protection arises because information systems are potentially vulnerable to unwanted events, or threats.

The Group's Information Security Policy is aimed at enhancement of its ability to collect, store, process and transmit Information. Information Systems and Information Processing are vital to the various entities in the Group in pursuit of its business objectives, and it is important that it is managed with regard to:

- Confidentiality – ensuring that information is accessible only to those authorised to have access;
- Integrity – safeguarding the accuracy and completeness of information and processing methods;
- Availability – ensuring that authorised users have access to information and associated assets when required;
- Effectiveness- the capability to produce the desired results especially to ensure that regulatory, operational and contractual requirement are fulfilled; and,
- Efficiency- the extent to which resources are used to achieve the desired results.

#### Procurement Policy

The Group has put in place a Group Procurement policy aimed at guiding the approach to procurement in the areas of systems implementation or significant upgrades of existing systems, acquisition of significant ICT infrastructure, deployment of standardized specifications such as for branding and marketing and for provision of critical services across the Group entities.

The coordinated approach to procurement of major goods and services is designed to deliver benefits in terms of standardized specifications, platforms for delivery of critical business operations and for deriving synergies, competitive pricing arising from economies of scale, a harmonized approach to business continuity in major business and operational matters and more importantly an efficient and reliable financial and management reporting as may be required from time to time by various stakeholders.

The policy is guided by key governance principles to maintain the highest level of integrity and transparency. It is a pre-requisite that no entity shall seek to gain undue advantage over another in pursuance of any one procurement initiative at Group level. The Procurement policy is also available on the Company's website.

# I&M GROUP PLC

## STATEMENT OF DIRECTORS' RESPONSIBILITIES

The Directors are responsible for the preparation and presentation of the consolidated and separate financial statements of I&M Group PLC (the "Group" or "Company") set out on pages 46 to 170 which comprise the consolidated and company statements of financial position at 31 December 2023, and the consolidated and company statements of profit or loss and other comprehensive income, consolidated and company statements of changes in equity and consolidated and company statements of cash flows for the year then ended, and the notes to the consolidated and separate financial statements including material accounting policies and other explanatory information, in conformity with IFRS Accounting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards) and in the manner required by the Kenyan Companies Act, 2015.

The Directors' responsibilities include: determining that the basis of accounting described in Note 2 is an acceptable basis for preparing and presenting the financial statements in the circumstances, preparation and presentation of financial statements in accordance with IFRS Accounting Standards and in the manner required by the Kenyan Companies Act, 2015 and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

Under the Kenyan Companies Act, 2015, the Directors are required to prepare financial statements for each financial year which give a true and fair view of the financial position of the Group and the Company as at the end of the financial year and of the profit or loss of the Group and the Company for that period. It also requires the Directors to ensure the Group and Company, its subsidiaries and joint venture keep proper accounting records which disclose with reasonable accuracy the financial position and its profit or loss of the Group and the Company.

The Directors accept responsibility for the maintenance of accounting records which may be relied upon in the preparation of annual financial statements, as well as adequate systems of internal financial control. The Directors are of the opinion that the financial statements give a true and fair view of the financial position and the profit or loss of the Group and the Company.

The Directors accept responsibility for the consolidated and separate financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgments and estimates, in conformity with IFRS Accounting Standards in the manner required by the Kenyan Companies Act, 2015.

The Directors have made an assessment of the Group and Company's ability to continue as a going concern and have no reason to believe the Group and/or the Company will not be a going concern for at least the next twelve months from the date of this statement.

### **Approval of the consolidated and separate financial statements**

The consolidated and separate financial statements, as indicated above, were approved and authorised for issue by the Board of Directors on **22 March 2024**.

## DIRECTORS' REMUNERATION REPORT

The Board Nomination, Remuneration & Governance Committee (BNRGC) of I&M Group PLC is pleased to present the Directors' remuneration report for the year ended 31 December 2023. This report is in compliance with I&M Group PLC's Board Charter on Director's reward and remuneration, the Code of Corporate Governance Guidelines issued by the Capital Markets Authority on Directors' remuneration, the Companies Act, 2015 and the Group Board Director's Remuneration Policy. In the course of executing these policies, the Board's desire is to align rewards with a clear and measurable linkage to business performance.

I&M Group PLC is regulated by the Capital Markets Authority and the Central Bank of Kenya as a non-operating holding company. I&M Group PLC's Board is therefore comprised of Executive and Non-Executive directors as detailed out on the corporate information page.

### **Board Remuneration**

At I&M Group PLC, Directors' remuneration is paid in the form of (i) Directors' Sitting Fees and (ii) Annual Retainer fees. The fees available to be paid to Directors will be subject to shareholder ratification /approval as appropriate and in accordance with the provisions of the Companies Act, 2015 and the CMA Regulations and Guidelines on Corporate Governance.

The BNRGC is tasked with ensuring that Directors' remuneration levels are reviewed with sufficient regularity and are subject to external benchmarking to ensure that I&M Group PLC continuously offers competitive reward packages for its Directors. The remuneration to Directors is comprised of the following:

#### **1. Fixed Annual Retainer Fees**

These fees are determined taking into account market rates of pay. Fees are reviewed with sufficient regularity to align to prevailing market movements. Any increases are determined in accordance with the business' ability to fund the increase. Retainer Fees are paid quarterly in arrears.

#### **2. Sitting or Attendance Fees**

All Directors are paid sitting or attendance fee in recognition of the time spent attending Board or Committee meetings. The level of fees paid are also benchmarked to market rates and trends.

During the year, the BNRGC adopted the following retainer fees:

<b>Particulars</b>	<b>Annual retainer fees 2023</b>	<b>Annual retainer fees 2022</b>
	<b>KShs</b>	<b>KShs</b>
Chairman	1,320,400	1,071,200
Director	466,250 – 966,250	798,250 - 865,000

Non-Executive Directors are not entitled to any pension, bonus or long term incentive plans. There will be no changes to these policies in the next financial year.

### **Directors' Contract of service:**

Directors who serve on the Board of I&M Group PLC are elected to office during the AGM and offer themselves up for re-election as mandated in the Companies Act, 2015. The tenure of the Directors is for a period of three years, upon which the Directors can elect to offer themselves for re-election, in accordance with Article No. 28 of the Company's Articles of Association. A Director's appointment ceases immediately upon termination by resignation or a resolution by the shareholders, and no further remuneration accrues to the Director thereafter. The tenures of the Directors in office at the end of the last financial year are tabulated below:

## I&M GROUP PLC

### DIRECTORS' REMUNERATION REPORT (CONTINUED)

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF I&M GROUP PLC**

### **Report on the audit of the consolidated and separate financial statements**

#### ***Opinion***

We have audited the consolidated and separate financial statements of I&M Group PLC (the “Group” and “Company”) set out on pages 46 to 170, which comprise the consolidated and company statements of financial position as at 31 December 2023, and the consolidated and company statements of profit or loss and other comprehensive income, consolidated and company statements of changes in equity and consolidated and company statements of cash flows for the year then ended, and notes to the consolidated and separate financial statements, including material accounting policies.

In our opinion, the accompanying consolidated and separate financial statements give a true and fair view of the consolidated and separate financial position of I&M Group PLC as at 31 December 2023, and of its consolidated and separate financial performance and its consolidated and separate cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards) and in the manner required by the Kenyan Companies Act, 2015.

#### ***Basis for opinion***

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated and separate financial statements* section of our report. We are independent of the Group and Company in accordance with the International Ethics Standards Board for Accountants *International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code)* together with the ethical requirements that are relevant to our audit of the consolidated and separate financial statements in Kenya, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### ***Key audit matters***

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated and separate financial statements of the current period. These matters were addressed in the context of our audit of the consolidated and separate financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

<b>Expected credit losses on loans and advances at amortised cost in the consolidated financial statements</b>
--

The disclosure associated with credit risk is set out in the financial statements in the following notes: — Note 3 (f) (iii) – Material accounting policies, <i>Impairment on financial assets</i> — Note 4(a) – Financial risk management, <i>Credit risk</i> — Note 20 (b) – Impairment loss on loans and advances and other financial assets at amortised costs
---

**INDEPENDENT AUDITOR'S REPORT  
TO THE MEMBERS OF I&M GROUP PLC (CONTINUED)**

**Report on the audit of the consolidated and separate financial statements (Continued)**

*Key audit matters (continued)*

<b>Expected credit losses on loans and advances at amortised cost in the consolidated financial statements (Continued)</b>	
<b>The key audit matter</b>	<b>How the matter was addressed in our audit</b>
<p><b>Subjective estimate</b></p> <p>The estimation of expected credit losses (“ECL”) on loans and advances and off-balance sheet elements, involves significant judgement and estimates. The key areas where we identified greater levels of management judgement in the Group’s financial statements and therefore increased levels of audit focus in the estimation of ECLs are:</p> <ul style="list-style-type: none"> <li>— Forward looking Information – <i>IFRS 9 Financial Instruments (IFRS 9)</i> requires the Group to measure ECLs on a forward-looking basis reflecting a range of future economic conditions. Significant management judgement is applied in determining the macroeconomic information used and the probability weightings applied.</li> <li>— Significant increase in credit risk (“SICR”) – the criteria selected to identify a significant increase in credit risk is a key area of judgement within the Group’s ECL calculation as these criteria determine whether a 12 month or lifetime provision is recorded.</li> <li>— Model estimations – inherently judgemental modelling is used to estimate ECL which involves determining probabilities of default (“PD”), based on historical loan performance data and loss given default (“LGD”) estimated based on historical default experience and exposures at default (“EAD”). The PD and LGD models are a key driver of complexity in the Group’s and Bank’s ECL modelling approach.</li> </ul> <p>We determined that the impairment of loans and advances to customers to be a key audit matter due to the high degree of estimation uncertainty and significant judgement applied by management in determination of ECL.</p>	<p>Our procedures in this area included:</p> <ul style="list-style-type: none"> <li>— Performing process walk-throughs to identify the key systems, applications and controls used in the ECL processes. We tested the relevant general IT and applications controls over key systems used in the ECL process. This included testing the design and operating effectiveness of the key controls over the staging criteria and completeness and accuracy of the key inputs and assumptions into the IFRS 9 impairment models.</li> <li>— Evaluating key aspects of the ECL model by: <ul style="list-style-type: none"> <li>▪ Selecting a sample of outstanding loans from the Group’s loan book and comparing these to the details in the customers’ credit files in order to establish whether facilities are correctly staged/classified and valued based on IFRS 9 as well as regulatory considerations;</li> <li>▪ For a sample of key data inputs and assumptions applied in the determination of ECL, assessing for accuracy of economic forecasts and challenging PD assumptions applied by involving our internal specialists in the reperformance of the economic forecasts and PD calculations;</li> <li>▪ Evaluating the appropriateness of the Group’s assessment of the SICR criteria used by assessing the qualitative factors such as increasing operating risks in some sectors by evaluating the increase in costs of raw materials, labour costs and regulatory compliance costs that squeeze profit margins and quantitative factors such as days past due by re-aging of the loans to assess accuracy of the classification of the loans into stage 1, 2 and 3;</li> <li>▪ Assessing the appropriateness of parameters used in the impairment models in regards to the probability PDs, LGDs, and EADs by considering the local economic conditions; and</li> <li>▪ Evaluating management’s basis for establishing Stage 3 impairment amounts. This includes challenging reasonability of management assumptions on cashflow projections and time to realization for a sample of facilities by assessing the valuations of related collateral and recomputing the discounted amounts given time to realise the collateral.</li> </ul> </li> <li>— Involving our internal financial risk modelling specialists to: <ul style="list-style-type: none"> <li>▪ Assess the Group’s methodology for determining the macro-economic scenarios used in the forward looking information by challenging the probability weightings applied to the scenarios.</li> <li>▪ Assess the key economic variables used, including agreeing samples of economic variables to external sources, as well as the overall reasonableness of the economic forecasts by comparing the Group’s forecasts to our own modelled forecasts.</li> </ul> </li> <li>— Evaluating the adequacy of the financial statements disclosures, including disclosures of key assumptions and judgements in accordance with IFRS 9.</li> </ul>

**INDEPENDENT AUDITOR'S REPORT  
TO THE MEMBERS OF I&M GROUP PLC (CONTINUED)**

**Report on the audit of the consolidated and separate financial statements (Continued)**

**Key audit matters (continued)**

<b>Impairment of goodwill in the consolidated financial statements</b>	
<b>The key audit matter</b>	<b>How the matter was addressed</b>
<p>The disclosure on goodwill is set out in the financial statements in the following notes:</p> <ul style="list-style-type: none"> <li>— Note 3 (j)(ii) – Material accounting policies, <i>Goodwill</i></li> <li>— Note 25(a) – Intangible assets – Goodwill</li> </ul>	
<p>Impairment of goodwill is considered a key audit matter because:</p> <ul style="list-style-type: none"> <li>— The sectors in which the Group operates are highly regulated and continues to experience competitive market conditions with <b>uncertainty</b> of forecast cash flows used in the valuation models.</li> <li>— A significant level of judgment is applied in determination of the recoverable amount where key inputs such as forecast cash flows, discount rates applied, forecast growth rates and terminal growth rates are applied in management's assessment of goodwill impairment.</li> </ul> <p>The preparation of the estimate of the carrying value and value in use ('VIU') involves subjective judgement and uncertainties and hence was considered as a key audit matter.</p>	<p>Our audit procedures in this area included, among others:</p> <ul style="list-style-type: none"> <li>— Evaluating the forecasting process undertaken by the Group by assessing the precision of prior year forecast cash flows by comparing with actual outcomes to assess the reliability of the forecasts used by the Group.</li> <li>— Involving our valuation specialists in challenging the Group's valuation methodology, discount rates and growth rates by comparing the Group's input to external data such as economic growth projections and interest rates for the sectors' weighted average cost of capital.</li> <li>— Assessing the adequacy of the financial statements disclosures, including disclosures of key assumptions and judgements in accordance with IAS 36 <i>Impairment of Assets</i>.</li> </ul>

**Other information**

The Directors are responsible for the other information. The other information comprises the Corporate information, Report of the directors, Statement on corporate governance, Statement of Directors' responsibilities and directors' remuneration report, but does not include the consolidated and separate financial statements, and our auditor's report thereon, which we obtained prior to the date of this auditor's report, and the additional other information to be included in the *I&M Group Plc Annual Integrated Report and Financial Statements for the year ended 31 December 2023*, which is expected to be made available to us after that date.

Our opinion on the consolidated and separate financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon, other than that prescribed by the Kenyan Company Act, 2015 as set out below.

In connection with our audit of the consolidated and separate financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**INDEPENDENT AUDITOR'S REPORT  
TO THE MEMBERS OF I&M GROUP PLC (CONTINUED)**

**Report on the audit of the consolidated and separate financial statements (Continued)**

*Directors' responsibilities for the consolidated and separate financial statements*

The Directors are responsible for the preparation of the consolidated and separate financial statements that give a true and fair view in accordance with IFRS Accounting Standards, and in the manner required by the Kenyan Companies Act, 2015 and for such internal control as the Directors determine is necessary to enable the preparation of the consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, Directors are responsible for assessing the Group's and Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group and/or the Company or to cease operations, or have no realistic alternative but to do so.

*Auditor's responsibilities for the audit of the consolidated and separate financial statements*

Our objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and/or the Company to cease to continue as a going concern.

**INDEPENDENT AUDITOR'S REPORT  
TO THE MEMBERS OF I&M GROUP PLC (CONTINUED)**

**Report on the audit of the consolidated and separate financial statements (Continued)**

*Auditor's responsibilities for the audit of the consolidated and separate financial statements (continued)*

- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Report on other legal and regulatory requirements**

As required by the Kenyan Companies Act, 2015 we report to you, solely based on our audit of the consolidated and separate financial statements, that in our opinion:

- (i) The information given in the *Report of the Directors* on pages 5 and 6 is consistent with the consolidated and separate financial statements; and
- (ii) The auditable part of the directors' remuneration report on pages 38 and 39 has been properly prepared in accordance with the Kenyan Companies Act, 2015.

*The engagement partner responsible for the audit resulting in this independent auditor's report is CPA Dr. Alexander Mbai - Practicing certificate number - P/2172.*

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023

#### 1. REPORTING ENTITY

I&M Group PLC (the “Company”), is a non-operating holding company licensed by the Central Bank of Kenya (CBK) under the Kenyan Banking Act (Chapter 488). The Company is incorporated in Kenya under the Kenyan Companies Act, 2015 and comprises banking subsidiaries in Kenya, Tanzania, Rwanda, Uganda and a joint venture in Mauritius and non banking Subsidiaries in Kenya, Mauritius and Uganda. The consolidated financial statements as at and for the year ended 31 December 2023 comprise of entities in Kenya – I&M Bank LIMITED, I&M Capital Limited, I&M Realty Limited, I&M Burbidge Capital Limited, Giro Limited, I&M Bancassurance Intermediary Limited, and Investment & Mortgages Nominees Limited; Tanzania - I&M Bank (T) Limited; Rwanda - I&M Bank (Rwanda) Plc, Mauritius - BCR Investment Company Limited and a joint venture - Bank One Limited; and Uganda – I&M Bank (Uganda) Limited and I&M Burbidge Capital (U) Limited (together referred to as the “Group”). The address of its registered office is as follows:

1 Park Avenue  
1<sup>st</sup> Parklands Avenue  
PO Box 30238  
00100 Nairobi GPO

The Company owns the following entities directly:

- (i) Bank One Limited – 50% interest in Bank One Limited, a joint venture in a bank licensed in Mauritius;
- (ii) I&M Bank LIMITED – 100% shareholding;
- (iii) I&M Capital Limited – 100% Shareholding;
- (iv) I&M Realty Limited – 100% Shareholding;
- (v) BCR Investment Company Limited – 100% Shareholding;
- (vi) I&M Burbidge Capital Limited – 100% Shareholding;
- (vii) Giro Limited – 100% Shareholding;
- (viii) I&M Bank (Uganda) Limited – 79.29% (2022 – 90%) Shareholding, and;
- (ix) Investment & Mortgages Nominees Limited – 100% Shareholding.

Through I&M Bank LIMITED, the Company has:

- (i) 78.51% (2022 - 77.8%) shareholding in I&M Bank (T) Limited, and;
- (ii) 100% shareholding in I&M Bancassurance Intermediary Limited (incorporated on 23 July 2014).

Through BCR Investment Company Limited, the Company has 54.47% effective shareholding in I&M Bank (Rwanda) Plc as BCR Investment Company Limited (Mauritius) owns 54.47% shareholding in I&M Bank (Rwanda) Plc;

Through I&M Burbidge Capital Limited, the Company has 100% effective shareholding in I&M Burbidge Capital (U) Limited as the Company is 100% owned by I&M Burbidge Capital Limited.

#### 2. BASIS OF PREPARATION

##### (a) Statement of compliance

The Group’s consolidated and separate financial statements for the year 2023 have been prepared in accordance with IFRS Accounting Standards and in a manner required by the Kenyan Companies Act, 2015. Additional information required by the regulatory bodies is included where appropriate.

Details of the material accounting policies are included in Note 3.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 2. BASIS OF PREPARATION (Continued)

##### (a) Statement of compliance (continued)

For the Kenyan Companies Act, 2015 reporting purposes, in these financial statements the “balance sheet” is represented by/is equivalent to the statement of financial position and the “profit and loss account” is presented in the statement of profit or loss and other comprehensive income.

##### (b) Basis of measurement

These consolidated and separate financial statements have been prepared under the historical cost basis of accounting except for the financial assets classified as Fair Value through Profit or Loss (FVTPL) and Fair Value through Other Comprehensive Income (FVOCI) and buildings which are measured at fair value.

##### (c) Functional and presentation currency

These consolidated and separate financial statements are presented in Kenya Shillings (KShs), which is also the Group’s functional currency. All financial information presented in KShs has been rounded to the nearest thousand (KShs’000) except where otherwise stated.

##### (d) Use of estimates and judgments

In preparing these consolidated financial statements, management has made judgements, estimates and assumptions that affect the application of the Group’s accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to estimates are recognised prospectively.

In particular information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the financial statements are described in Note 5.

#### 3. MATERIAL ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these consolidated financial statements are set out below:

##### (a) Basis of consolidation

###### (i) *Business combination*

The Group accounts for business combinations using the acquisition method when the acquired set of activities and assets meets the definition of a business and control is transferred to the Group. In determining whether a particular set of activities and assets is a business, the Group assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive process and whether the acquired set has the ability to produce outputs.

The Group has an option to apply a ‘concentration test’ that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The optional concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (a) **Basis of consolidation (continued)**

###### (i) *Business combination – continued*

The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in profit or loss immediately. Transaction costs are expensed as incurred, except if related to the issue of debt or equity securities.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, other contingent consideration is remeasured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

If share-based payment awards (replacement awards) are required to be exchanged for awards held by the acquiree's employees (acquiree's awards), then all or a portion of the amount of the acquirer's replacement awards is included in measuring the consideration transferred in the business combination. This determination is based on the market-based measure of the replacement awards compared with the market-based measure of the acquiree's awards and the extent to which the replacement awards relate to pre-combination service.

###### (ii) *Non-controlling interests*

Non-controlling interests are measured at their proportionate share of the acquiree's identifiable net assets at the acquisition date.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

###### (iii) *Subsidiaries*

Subsidiaries are investees controlled by the Group. The Group controls an investee when it is exposed to, or has rights to, variable returns from its involvement in the investee and has the ability to affect those returns through its power over the investee. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. The financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances. All intercompany transactions are eliminated during consolidation.

###### (iv) *Interest in equity-accounted investees*

Investments in joint ventures are accounted for using the equity method of accounting in the Consolidated/Group financial statements. These are undertakings in which the Group has between 20% and 50% of the voting rights and over which the Group exercises significant influence but which it does not control. Under the equity method, the Group's share of its joint ventures' post-acquisition profits or losses is recognised in profit or loss and its share of other comprehensive income is recognised in other comprehensive income. The cumulative post-acquisition total comprehensive income or loss (including dividends received from the associate) is adjusted against the carrying amount of the investment.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (a) Basis of consolidation (continued)

##### *(iv) Interest in equity-accounted investees - continued*

Losses of a joint venture in excess of the Group's interest in that joint venture are recognised only to the extent that the Group has incurred legal or constructive obligations to make payments on behalf of the associate.

Unrealized gains arising from transaction with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

Investments in joint ventures are accounted at cost less impairment loss in the separate financial statements of the Company. They are initially recognised at cost which includes transaction costs.

##### *(v) Loss of control*

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interest (NCI) and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

##### *(vi) Transactions eliminated on consolidation*

Intra-group balances and transactions, and any unrealised income and expenses (except for foreign currency transaction gains or losses) arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

##### (b) Foreign currencies

Foreign currency transactions are translated into the functional currency of Group entities using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss in the year in which they arise.

Foreign currency non-monetary items measured at fair value are translated into functional currency using the rate of exchange at the date the fair value was determined. Foreign currency gains and losses on non-monetary items are recognized in the Consolidated Statement of profit or loss and other comprehensive income consistent with the gain or loss on the non-monetary item.

##### (c) Foreign operations

The results and financial position of the subsidiaries have been translated into the presentation currency as follows:

- (i) Assets and liabilities at each reporting period are translated at the closing rate at the reporting date;
- (ii) Income and expenses for each statement of comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (c) Foreign operations

(iii) All resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities, and of borrowings and other currency instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold, such exchange differences are recognised in profit or loss as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

##### (d) Income recognition

###### (i) *Net interest income*

###### **Effective interest rate and amortised cost**

Interest income and expense are recognised in profit or loss using the effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

When calculating the effective interest rate for financial instruments other than credit-impaired assets, the Group estimates future cash flows considering all contractual terms of the financial instrument, but not expected credit losses. For credit-impaired financial assets, a credit-adjusted effective interest rate is calculated using estimated future cash flows including expected credit losses.

The calculation of the effective interest rate includes transaction costs and fees and points paid or received that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or financial liability.

###### **Amortised cost and gross carrying amount**

The 'amortised cost' of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any expected credit loss allowance.

The 'gross carrying amount of a financial asset' is the amortised cost of a financial asset before adjusting for any expected credit loss allowance.

###### **Calculation of interest income and expense**

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability.

However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (d) Income recognition (continued)

###### (i) *Net interest income – continued*

For financial assets that were credit-impaired on initial recognition, interest income is calculated by applying the credit-adjusted effective interest rate to the amortised cost of the asset. The calculation of interest income does not revert to a gross basis, even if the credit risk of the asset improves.

For information on when financial assets are credit-impaired, see Note 3(f)(iv).

###### **Presentation**

Interest income and expense presented in the statement of profit or loss and other comprehensive income include:

- interest on financial assets and financial liabilities measured at amortised cost calculated on an effective interest basis;
- interest on debt instruments measured at Fair Value Through Other Comprehensive Income (FVOCI) calculated on an effective interest basis;

Interest income and expense on all trading assets and liabilities are considered to be incidental to the Group's trading operations and are presented together with all other changes in the fair value of trading assets and liabilities in net trading income.

Interest income and expense on other financial assets and financial liabilities at FVTPL are presented in net income from other financial instruments at Fair Value Through Profit or Loss (FVTPL).

###### (ii) *Net fee and commission income*

Fee and commission income and expenses that are integral to the effective interest rate of a financial asset or liability are included in the measurement of the effective interest rate.

Other fee and commission income – including account servicing fees, investment management fees, sales commission, placement fees and syndication fees – is recognised as the related services are performed.

Corporate advisory fees receivable in the normal course of business, are recognised on the basis of terms and conditions stipulated in the client engagement contract, and are recognised over time as the service is provided. The amounts to be collected from customers at period end are recognised as trade receivables. Variable commission are recognised when it is probable that the fee is payable.

A contract with a customer that results in a recognised financial instrument in the Group's financial statements may be partially in the scope of IFRS 9 and partially in the scope of IFRS 15. If this is the case, then the Group first applies IFRS 9 to separate and measure the part of the contract that is in the scope of IFRS 9 and then applies IFRS 15 to the residual.

Other fee and commission expenses relate mainly to transaction and service fees, which are expensed as the services are received.

###### (iii) *Net trading income and net income on financial assets at fair value through profit or loss*

'Net trading income and net income on financial assets at fair value through profit or loss' comprises gains less losses related to trading assets and liabilities, and includes all fair value changes, interest, dividends and foreign exchange differences.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (d) Income recognition (continued)

###### (iv) *Other operating income*

Other operating income comprises rental income and gain on disposal of property and equipment. Rental income is recognised in the profit or loss on a straight-line basis over the term of the lease.

###### (v) *Dividend income*

Dividend income is recognised when the right to receive income is established. Dividends are reflected as a component of operating income.

##### (e) Income tax expense

Income tax expense comprises current tax and change in deferred tax. Income tax expense is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income for the year using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised on all temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes, except for:

- temporary differences relating to the initial recognition of assets or liabilities in a transaction that is not a business combination and which affects neither accounting nor taxable profit;
- temporary differences related to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities against current tax assets and they relate to income taxes levied by the same tax authority on the same taxable entity or on different tax entities, but they intend to settle current tax assets and liabilities on a net basis or their tax assets and liabilities will be realized simultaneously.

## **I&M GROUP PLC**

### **NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS** **FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

#### **3. MATERIAL ACCOUNTING POLICIES (Continued)**

##### **(f) Financial instruments**

##### **(i) Initial recognition and initial measurement of financial assets**

The Group recognises a financial asset in its statement of financial position when it becomes party to the contractual provisions of the instrument. Financial asset (except for certain trade receivables) is measured at initial recognition at its fair value plus, for financial assets not subsequently measured 'at fair value through profit or loss' transaction costs that are directly attributable to the acquisition of the financial asset. The Group's Trade receivables that do not have a significant financing component (determined in accordance with IFRS 15- Revenue from Contracts with Customers) are not initially measured at fair value, rather they are initially measured at their transaction price. The Group initially recognises loans and advances, deposits, debt securities issued and subordinated liabilities on the date on which they are originated. All other financial instruments (including regular-way purchases and sales of financial assets) are recognised on the trade date, which is the date on which the Group becomes a party to the contractual provisions of the instrument.

##### **(ii) Classification and measurement of financial assets**

After initial recognition, the Group's financial assets are measured at:

- (i) amortised cost;
- (ii) fair value through other comprehensive income (FVOCI); or
- (iii) fair value through profit or loss (FVPL).

Except for the Group's financial assets that are designated at initial recognition as at fair value through profit or loss, the Group's financial asset is classified on the basis of both:

- (a) the Group's business model for managing the financial assets; and
- (b) the contractual cash flow characteristics of the financial asset.

##### **(i) Amortised cost**

Except for the Group's financial assets that are designated at initial recognition as at fair value through profit or loss the Group's financial assets are measured at amortised cost only if both of the following conditions are met:

- (a) the financial asset of the Group is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- (b) the contractual terms of the Group's financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

If the Group's financial asset satisfies both of these conditions, the Group measures the financial asset at amortised cost unless it is designated as at fair value through profit or loss (FVPL) on initial recognition. Any of the Group's Financial assets that do not meet the conditions stated above, are required to be subsequently measured at fair value through profit or loss except for investments in equity instruments not held for trading that are elected at initial recognition to be measured at fair value through other comprehensive income. Financial assets of the Group that meets the condition in (b) above but do not meet the condition in (a) above, may meet the criteria to be measured at fair value through other comprehensive income.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (f) Financial instruments (continued)

##### (ii) Classification and measurement of financial assets – continued

##### (i) Amortised cost – continued

Because both conditions (the business model test and the contractual cash flows characteristics test) must be met for amortised cost measurement, the order in which the tests are performed is irrelevant for the Group. The Group classifies its financial assets into the following categories: financial assets at fair value through profit and loss (FVPL); equity investments designated as at fair value through other comprehensive income (FVOCI) and financial assets at amortised cost. Management determines the appropriate classification of its investment at initial recognition.

The classification of financial instruments can be seen in the table below.

Category	Classification	Financial statement caption	Class	
Financial assets	Fair value through profit or loss	Financial assets at fair value through profit or loss	Debt securities	
			Derivative assets	
	Amortised cost	Loans and advances to banks		
		Due from group companies		
		Loans and advances to customers		
		Other assets		
	Cash and balances with Central Bank of Kenya			
	Fair value through other comprehensive income	Financial assets at fair value through other comprehensive income	Investment securities designated at FVOCI	
Financial liabilities	Financial liabilities at amortised cost	Deposits from banks		
		Deposits from customers		
		Borrowings		
		Due to group companies		
		Other liabilities		
	Fair value through profit or loss	Financial assets at fair value through profit or loss	Derivative liabilities	
Off-balance sheet financial instruments	Loan commitments			
	Guarantees, acceptances and other financial liabilities			
The Group recognises ECL based on unbiased forward-looking information. ECL is recognised on all financial assets measured at amortised cost, lease receivables, debt instruments measured at fair value through other comprehensive income, loan commitments not measured at fair value and financial guarantee contracts not measured at fair value.				

##### **Business model assessment for amortised cost measurement**

For amortised cost measurement, the Group's financial assets are held within a business model whose objective is to hold financial assets in order to collect the contractual cash flows.

Financial assets of the Group that are held within a business model whose objective is to hold assets in order to collect contractual cash flows are managed to realise cash flows by collecting contractual payments over the life of the instrument. That is, the Group manages the assets held within the portfolio to collect those contractual cash flows (instead of managing the overall return on the portfolio by both holding and selling assets).

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (f) Financial instruments (continued)

##### (ii) Classification and measurement of financial assets – continued

###### (i) Amortised cost – continued

In determining whether cash flows are going to be realised by collecting the Group's financial assets' contractual cash flows, the Group considers the frequency, value and timing of sales in prior periods, the reasons for those sales and expectations about future sales activity. However, sales in themselves do not determine the business model of the Group and therefore cannot be considered in isolation. Instead, information about the Group's past sales and expectations about future sales provide evidence related to how the Group's stated objective for managing the financial assets is achieved and, specifically, how cash flows are realised. The Group considers information about past sales within the context of the reasons for those sales and the conditions that existed at that time as compared to current conditions.

###### (ii) Fair value through other comprehensive income (FVOCI)

Except for financial assets of the Group that are designated at initial recognition as at fair value through profit or loss the Group's financial asset is measured at fair value through other comprehensive income (FVOCI) if both of the following conditions are met:

- (a) the Group's financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- (b) the contractual terms of the Group's financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets of the Group that do not meet the condition in (b) above, are required to be subsequently measured at fair value through profit or loss or in the case of certain investments in equity instruments may be elected at initial recognition to be measured at fair value through other comprehensive income. Financial asset of the Group that meets the condition in (b) above but does not meet the condition in (a) above, may meet the criteria to be measured at amortised cost.

##### **Designation of equity instruments as at FVOCI**

At initial recognition, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument that is not held for trading nor contingent consideration recognised by an acquirer in a business combination to which IFRS 3-Business Combinations applies. The Group's financial asset is held for trading if:

- (a) it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
- (b) on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; or
- (c) it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (f) Financial instruments (continued)

##### (ii) *Classification and measurement of financial assets – continued*

##### (ii) *Fair value through other comprehensive income (FVOCI) - continued*

The election by the Group to designate an investment in an equity instrument at FVOCI is made on an instrument-by-instrument (i.e., share-by-share) basis. If the election is made, only dividend income that does not clearly represent a recovery of part of the cost of the investment is recognised in profit or loss, with all other gains and losses (including those relating to foreign exchange) recognised in other comprehensive income. These gains and losses remain permanently in equity and are not subsequently reclassified to profit or loss, even on derecognition. However, the Group may transfer the cumulative gain or loss within equity as a reserve movement.

##### **Business model assessment for FVOCI measurement**

Fair value through other comprehensive income measurement financial assets must be held within the Group's business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

The Group may hold financial assets in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. In this type of business model, the Group's key management personnel have made a decision that both collecting contractual cash flows and selling financial assets are integral to achieving the objective of the business model. There are various objectives that may be consistent with this type of business model.

For example, the objective of the Group's business model may be to manage everyday liquidity needs, to maintain a particular interest yield profile or to match the duration of the financial assets to the duration of the liabilities that those assets are funding. To achieve such an objective, the Group will both collect contractual cash flows and sell financial assets.

Compared to the Group's business model whose objective is to hold financial assets to collect contractual cash flows, this business model will typically involve greater frequency and value of sales. This is because selling financial assets is integral to achieving the business model's objective instead of being only incidental to it. However, there is no threshold for the frequency or value of sales that must occur in this business model because both collecting contractual cash flows and selling the Group's financial assets are integral to achieving its objective.

##### (iii) *Fair value through profit or loss (FVPL)*

The Group classifies assets that do not qualify for amortised cost measurement or measurement at FVOCI to be measured subsequently to initial recognition at FVPL (except if it is an investment in an equity instrument designated at FVOCI).

The Group may irrevocably elect on initial recognition to designate a financial asset that meets the conditions for amortised cost measurement or FVOCI as at FVPL if that designation eliminates or significantly reduces accounting mismatch that would have occurred if the financial asset had been measured at amortised cost or FVOCI.

## **I&M GROUP PLC**

### **NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS** **FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

#### **3. MATERIAL ACCOUNTING POLICIES (Continued)**

##### **(f) Financial instruments (continued)**

##### *(ii) Classification and measurement of financial assets – continued*

##### *(iii) Fair value through profit or loss (FVTPL) - continued*

Gains and losses that arise between the end of the last annual reporting period and the date an instrument is derecognised do not constitute a separate 'profit/loss on disposal'. Such gains and losses will have arisen prior to disposal, while the item is still being measured at FVPL, and should be recognised in profit or loss when they occur.

##### **Business model assessment**

The Group makes an assessment of the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

##### **Assessment whether contractual cash flows are Solely Payments of Principal and Interest (SPPI Test)**

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

## **I&M GROUP PLC**

### **NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS** **FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

#### **3. MATERIAL ACCOUNTING POLICIES (Continued)**

##### **(f) Financial instruments (continued)**

##### **(ii) Classification – continued**

##### **Assessment whether contractual cash flows are Solely Payments of Principal and Interest (SPPI Test) – continued**

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Group considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse asset arrangements); and
- features that modify consideration of the time value of money – e.g. periodical reset of interest rates.

The Group holds a portfolio of long-term fixed rate loans for which the Group has the option to propose to revise the interest rate at periodic reset dates. These reset rights are limited to the market rate at the time of revision. The borrowers have an option to either accept the revised rate or redeem the loan at par without penalty.

The Group has determined that the contractual cash flows of these loans are solely payments of principal and interest because the option varies the interest rate in a way that is consideration for the time value of money, credit risk, other basic lending risks and costs associated with the principal amount outstanding.

##### **Debt instruments measured at amortised cost**

Debt instruments are measured at amortized cost if they are held within a business model whose objective is to hold for collection of contractual cash flows where those cash flows represent solely payments of principal and interest. After initial measurement, debt instruments in this category are carried at amortized cost. Interest income on these instruments is recognized in interest income using the effective interest rate method. The effective interest rate is the rate that discounts estimated future cash payments or receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. Amortized cost is calculated by taking into account any discount or premium on acquisition, transaction costs and fees that are an integral part of the effective interest rate.

Impairment on debt instruments measured at amortized cost is calculated using the expected credit loss approach. Loans and debt securities measured at amortized cost are presented net of the expected credit losses (ECL) in the statement of financial position.

##### **Debt instruments measured at FVOCI**

Debt instruments are measured at FVOCI if they are held within a business model whose objective is to hold for collection of contractual cash flows and for selling financial assets, where the assets' cash flows represent payments that are solely payments of principal and interest. Subsequent to initial recognition, unrealized gains and losses on debt instruments measured at FVOCI are recorded in other comprehensive income (OCI).

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (f) Financial instruments (continued)

##### (ii) Classification – continued

##### **Debt instruments measured at FVOCI – continued**

Upon derecognition, realized gains and losses are reclassified from OCI and recorded in Non-interest income in the Consolidated Statement of Profit or Loss and Other Comprehensive Income on an average cost basis. Foreign exchange gains and losses that relate to the amortized cost of the debt instrument are recognized in the Consolidated Statement of Profit or Loss and Other Comprehensive Income.

Premiums, discounts and related transaction costs are amortized over the expected life of the instrument to Interest income in the Consolidated Statement of Profit or Loss and Other Comprehensive Income using the effective interest rate method.

Impairment on debt instruments measured at FVOCI is calculated using the expected credit loss approach. The ECL on debt instruments measured at FVOCI does not reduce the carrying amount of the asset in the Consolidated Statement of Financial Position, which remains at its fair value. Instead, an amount equal to the allowance that would arise if the assets were measured at amortised cost is recognised in OCI with a corresponding charge to Provision for credit losses in the Consolidated Statement of Profit or Loss and Other Comprehensive Income. The accumulated allowance recognised in OCI is recycled to the Consolidated Statement of Profit or Loss and Other Comprehensive Income upon derecognition of the debt instrument.

##### **Debt instruments measured at FVTPL**

Debt instruments are measured at FVTPL if assets:

- (i) Are held for trading purposes;
- (ii) Whose cash flows do not represent payments that are solely payments of principal and interest.

These instruments are measured at fair value in the Consolidated Statement of Financial Position, with transaction costs recognized immediately in the Consolidated Statement of Profit or Loss and Other Comprehensive Income as part of Non-interest income. Realized and unrealized gains and losses are recognized as part of Non-interest income in the Consolidated Statement of Profit or Loss and Other Comprehensive Income.

##### **Debt instruments designated at FVTPL**

Financial assets classified in this category are those that have been designated by the Group upon initial recognition, and once designated, the designation is irrevocable. The FVTPL designation is available only for those financial assets for which a reliable estimate of fair value can be obtained.

Financial assets are designated at FVTPL if doing so eliminates or significantly reduces an accounting mismatch which would otherwise arise.

Financial assets designated at FVTPL are recorded in the Consolidated Statement of Financial Position at fair value. Changes in fair value are recognized in Non-interest income in the Consolidated Statement of Profit or Loss and Other Comprehensive Income.

## **I&M GROUP PLC**

### **NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS** **FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

#### **3. MATERIAL ACCOUNTING POLICIES (Continued)**

##### **(f) Financial instruments (continued)**

##### **(ii) Classification – continued**

##### **Equity instruments**

The Group has elected at initial recognition to irrevocably designate an equity investment, held for purposes other than trading, at FVOCI. The fair value changes, including any associated foreign exchange gains or losses, are recognized in OCI and are not subsequently reclassified in the Consolidated Statement of Profit or Loss and Other Comprehensive Income, including upon disposal. Realized gains and losses are transferred directly to retained earnings upon disposal. Consequently, there is no review required for impairment. Dividends will normally be recognized in the profit or loss.

##### **Reclassification of financial assets**

The Group reclassifies financial assets when it changes its business model for managing financial assets.

Reclassifications are expected to be very infrequent. Such changes are determined by the Group's senior management as a result of external or internal changes and must be significant to the Group's operations and demonstrable to external parties. Accordingly, a change in Group's business model will occur only when the Group either begins or ceases to perform an activity that is significant to its operations; for example, when the Group has acquired, disposed of or terminated a business line.

The following are not considered to be changes in the Group's business model:

- a change in intention related to particular financial assets (even in circumstances of significant changes in market conditions);
- a temporary disappearance of a particular market for financial assets; or
- a transfer of financial assets between parts of the Group with different business models

When the Group's financial asset converts into a different financial asset during the instrument's life, the Group considers whether the original asset should continue to be recognised or whether, on conversion, the old instrument is derecognised and a new one is recognised.

If the Group reclassifies its financial assets, it applies the reclassification prospectively from the reclassification date, defined as the first day of the first reporting period following the change in business model that results in the Group reclassifying financial assets.

The reclassification applies prospectively from the reclassification date and therefore previous recognised gains, losses (including impairment gains or losses) or interest are not restated. Changes in the objective of the Group's business model are usually effected before the reclassification date.

##### **Financial liabilities**

The Group classifies its financial liabilities, other than financial guarantees and loan commitments, as measured at amortised cost.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (f) Financial instruments (continued)

##### (iii) *Impairment on financial assets*

The Group recognises loss allowances for expected credit losses (ECL) on the following financial instruments that are not measured at FVTPL:

- financial assets that are debt instruments (amortised cost and FVOCI) including loans and advances, trade receivables from Bancassurance and Advisory, and other financial assets measured at amortised cost.
- lease receivables (rental income collected from Investment properties);
- financial guarantee contracts issued; and
- loan commitments issued.

No impairment loss is recognised on equity investments.

The Group measures loss allowances at an amount equal to lifetime ECL, except for the following, for which they are measured as 12-month ECL:

- debt investment securities that are determined to have low credit risk at the reporting date i.e. balances held with central banks, domestic government bills and bonds, and loans and advances to banks; and
- other financial instruments (other than lease receivables) on which credit risk has not increased significantly since their initial recognition i.e. stage 1 (see Note 4(a)).

Loss allowances for lease receivables (on investment property), and trade receivables (on advisory and bancassurance) are always measured at an amount equal to lifetime ECL. Trade receivables are considered fully impaired if they are over 360 days past due.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Group considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

The Group considers a debt security to have low credit risk when their credit risk rating is equivalent to the globally understood definition of 'investment grade'. The Group has however carried ECL assessment on investment securities and bank placements and the charge has been considered to be immaterial.

12-month ECL are the portion of ECL that result from default events on a financial instrument that are possible within the 12 months after the reporting date. Financial instruments for which a 12-month ECL is recognised are referred to as 'Stage 1 financial instruments'.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (f) Financial instruments (continued)

##### (iii) *Impairment on financial assets – continued*

Life-time ECL are the ECL that result from all possible default events over the expected life of the financial instrument. Financial instruments for which a lifetime ECL is recognised but which are not credit-impaired are referred to as ‘Stage 2 financial instruments’.

##### *Significant Increase in Credit Risk (SICR)*

At each reporting date, the Group performs both qualitative and quantitative assessments to determine whether there has been a significant increase in credit risk for exposures since initial recognition by comparing the risk of default occurring over the remaining expected life from the reporting date and the date of initial recognition. The assessment considers borrower-specific quantitative and qualitative information without consideration of collateral, and the impact of forward-looking macroeconomic factors.

The common assessments for SICR is largely determined by the macroeconomic outlook, management judgement, and delinquency and monitoring.

The Group uses below criteria for determining whether there has been a significant increase in credit risk:

- a quantitative test based on movement in PD;
- qualitative indicators; and
- the Group considers that a significant increase in credit risk occurs when assets is more than 30 days past due.

Quantitative models may not always be able to capture all reasonable and supportable information that may indicate a significant increase in credit risk. Qualitative factors may be assessed to supplement the gap. Examples of situations include a significant departure from the primary source of repayment, changes in adjudication criteria for a particular group of borrowers; changes in portfolio composition; and legislative changes impacting certain portfolios.

With regards to delinquency and monitoring, there is a rebuttable presumption that delinquency backstop when contractual payments are more than 30 days past due.

##### *Measurement of ECL*

ECL are a probability-weighted estimate of credit losses. They are measured as follows:

- *financial assets that are not credit-impaired at the reporting date (stage 1 and 2):* as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive);
- *financial assets that are credit-impaired at the reporting date (stage 3):* as the difference between the gross carrying amount and the present value of estimated future cash flows;
- *undrawn loan commitments:* as the present value of the difference between the contractual cash flows that are due to the Group if the commitment is drawn down and the cash flows that the Group expects to receive; and
- *financial guarantee contracts:* the expected payments to reimburse the holder less any amounts that the Group expects to recover. See also Note 4(a).

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (f) Financial instruments (continued)

##### (iii) *Impairment on financial assets – continued*

###### *Restructured financial assets*

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognised (see note 3(f)(iv)) and Note 4a(v) and ECL are measured as follows.

- If the expected restructuring will not result in derecognition of the existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from the existing asset.
- If the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective interest rate of the existing financial asset.

###### *Credit-impaired financial assets*

At each reporting date, the Group assesses whether financial assets carried at amortised cost and debt financial assets carried at FVOCI are credit-impaired (referred to as stage 3 financial assets). A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

A loan that is overdue for 90 days or more is considered impaired. In addition, a loan that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment.

###### *Government securities (debt instruments)*

In making an assessment of whether an investment in sovereign debt is credit-impaired, the Group considers the following factors;

- (i) The market's assessment of creditworthiness as reflected in bond yields.
- (ii) The rating agencies assessments of creditworthiness.
- (iii) The country's ability to access the capital markets for new debt issuance.
- (iv) The probability of debt being restructured, resulting in holders suffering losses through voluntary or mandatory debt forgiveness.

## **I&M GROUP PLC**

### **NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS** **FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

#### **3. MATERIAL ACCOUNTING POLICIES (Continued)**

##### **(f) Financial instruments (continued)**

##### **(iii) Impairment on financial assets – continued**

###### *Presentation of allowance for ECL in the statement of financial position*

Loss allowances for ECL are presented in the statement of financial position as follows:

- *financial assets measured at amortised cost*: as a deduction from the gross carrying amount of the assets;
- *loan commitments and financial guarantee contracts*: generally, as a provision;
- *where a financial instrument includes both a drawn and an undrawn component, and the Group cannot identify the ECL on the loan commitment component separately from those on the drawn component*: the Group presents a combined loss allowance for both components. The combined amount is presented as a deduction from the gross carrying amount of the drawn component. Any excess of the loss allowance over the gross amount of the drawn component is presented as a provision; and
- *debt instruments measured at FVOCI*: no loss allowance is recognised in the statement of financial position because the carrying amount of these assets is their fair value. However, the loss allowance is disclosed and is recognised in the fair value reserve.

###### *Write-off*

Financial assets at both amortised and FVOCI are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when the Group determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

##### **(iv) De-recognition**

###### **Financial assets**

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI is recognised in profit or loss.

Any cumulative gain/loss recognised in OCI in respect of equity investment securities designated as at FVOCI is not recognised in profit or loss on derecognition of such securities. Any interest in transferred financial assets that qualify for derecognition that is created or retained by the Group is recognised as a separate asset or liability.

## **I&M GROUP PLC**

### **NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

#### **3. MATERIAL ACCOUNTING POLICIES (Continued)**

##### **(f) Financial instruments (continued)**

##### **(iv) *De-recognition – continued***

##### **Financial assets – continued**

The Group enters into transactions whereby it transfers assets recognised on its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets or a portion of them. In such cases, the transferred assets are not derecognised. Examples of such transactions are securities lending and sale-and-repurchase transactions.

When assets are sold to a third party with a concurrent total rate of return swap on the transferred assets, the transaction is accounted for as a secured financing transaction similar to sale-and-repurchase transactions, because the Group retains all or substantially all of the risks and rewards of ownership of such assets.

In transactions in which the Group neither retains nor transfers substantially all of the risks and rewards of ownership of a financial asset and it retains control over the asset, the Group continues to recognise the asset to the extent of its continuing involvement, determined by the extent to which it is exposed to changes in the value of the transferred asset.

In certain transactions, the Group retains the obligation to service the transferred financial asset for a fee. The transferred asset is derecognised if it meets the derecognition criteria. An asset or liability is recognised for the servicing contract if the servicing fee is more than adequate (asset) or is less than adequate (liability) for performing the servicing.

##### **Financial liabilities**

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

##### **(v) *Modifications of financial assets and financial liabilities***

##### **Financial assets**

If the terms of a financial asset are modified, the Group evaluates whether the cash flows of the modified asset are substantially different. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised and a new financial asset is recognised at fair value.

If the cash flows of the modified asset carried at amortised cost are not substantially different, then the modification does not result in derecognition of the financial asset. In this case, the Group recalculates the gross carrying amount of the financial asset and recognises the amount arising from adjusting the gross carrying amount as a modification gain or loss in profit or loss. If such a modification is carried out because of financial difficulties of the borrower, then the gain or loss is presented together with impairment losses. In other cases, it is presented as interest income.

The Group Credit Committee regularly reviews reports on forbearance activities. For financial assets modified as part of the Group's forbearance policy, the estimate of PD reflects whether the modification has improved or restored the Group's ability to collect interest and principal and the Group's previous experience of similar forbearance action.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (f) Financial instruments (continued)

##### (v) *Modifications of financial assets and financial liabilities - continued*

##### **Financial assets - continued**

As part of this process, the Group evaluates the borrower's payment performance against the modified contractual terms and considers various behavioural indicators. Generally, forbearance is a qualitative indicator of a significant increase in credit risk and an expectation of forbearance may constitute evidence that an exposure is credit-impaired (see Note 2). A customer needs to demonstrate consistently good payment behaviour over a period of time before the exposure is no longer considered to be credit-impaired/in default or the PD is considered to have decreased such that the loss allowance reverts to being measured at an amount equal to Stage 1.

The impact of modifications of financial assets on the expected credit loss calculation is discussed in Note 3(f)(iv) and Note 4(a)(v).

##### **Financial liabilities**

The Group derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability derecognised and the consideration paid is recognised in profit or loss. Consideration paid includes non-financial assets transferred, if any, and the assumption of liabilities, including the new modified financial liability.

If the modification of a financial liability is not accounted for as derecognition, then the amortised cost of the liability is recalculated by discounting the modified cash flows at the original effective interest rate and the resulting gain or loss is recognised in profit or loss. For floating-rate financial liabilities, the original effective interest rate used to calculate the modification gain or loss is adjusted to reflect current market terms at the time of modification. Any costs and fees incurred are recognised as an adjustment to the carrying amount of the liability and amortised over the remaining term of the modified financial liability by re-computing the effective interest rate on the instrument.

An input is deemed to be significant if it is shown to contribute more than 10% to the fair value of an item. Unobservable input levels are generally determined based on observable inputs of a similar nature, historical observations as well as through employing other analytical techniques.

##### (g) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its **non-performance risk**.

If there is no quoted price in an active market, then the Group uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

The best evidence of the fair value of a financial instrument at initial recognition is normally the transaction price – i.e. the fair value of the consideration given or received.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (g) Fair value measurement (continued)

If the Group determines that the fair value at initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value at initial recognition and the transaction price. Subsequently, that difference is recognised in profit or loss on an appropriate basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data or the transaction is closed out.

If an asset or liability measure at fair value has a bid price and an ask price, then the Group measures assets and long positions at a bid price and liabilities and short positions at an ask price.

The fair value of a demand deposit is not less than the amount payable on demand, discounted from the first date on which the amount could be required to be paid.

The Group measure fair values using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements:

- Level 1: inputs that are quoted market prices (unadjusted) in active markets for identical instruments.
- Level 2: inputs other than quoted prices included in level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.
- Level 3: inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

##### (h) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows in the financial statements, cash and cash equivalents' include notes and coins on hand, unrestricted balances held with central banks and highly liquid financial assets with original maturities of three months or less from the date of acquisition that are subject to an insignificant risk of changes in their fair value, and are used by the Group in the management of its short-term commitments. Cash and cash equivalents are carried at amortised cost in the statement of financial position.

##### (i) Property and equipment

Items of property and equipment are measured at cost or valuation (buildings) less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to the asset.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (i) Property and equipment

Subsequent expenditure is capitalised only when it is probable that future economic benefits of the expenditure will flow to the Group. On-going repairs and maintenance are expensed as incurred.

Depreciation is charged on a straight line basis to allocate the cost of each asset, to its residual value over its estimated useful life as follows:

— Leasehold improvements	8 – 10 years or over the period of Lease if shorter than 8 years
— Computer equipment and computer software	3 – 4 years
— Furniture, fittings and fixtures	8 years
— Motor vehicles	4- 5 years

Depreciation is recognised in profit or loss. The assets' residual values and useful lives are reviewed and adjusted as appropriate, at each reporting date.

Any gains or losses on disposal of property and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in other income in profit or loss.

##### (j) Intangible assets

###### (i) Computer software

The costs incurred to acquire and bring to use specific computer software licences are capitalised. Software is measured at cost less accumulated amortisation and accumulated impairment. The costs are amortised on a straight line basis over the expected useful lives, from the date it is available for use, not exceeding five years. Costs associated with maintaining software are recognised as an expense as incurred.

Amortisation methods, residual values and useful lives are reviewed and adjusted as appropriate, at each reporting date.

###### (ii) Goodwill

Goodwill represents the excess of the cost of an acquisition over the Group's interest in the net fair value of the acquired company's identifiable assets, liabilities and contingent liabilities as at the date of acquisition. Goodwill is stated at cost less accumulated impairment losses.

Goodwill is reviewed annually to determine whether there is any indication of impairment. The task involves comparing the carrying value of a cash generating unit (CGU) including cashflows, discounted at a rate of interest that reflects inherent risk of the CGU to which the goodwill relates to. The CGU discounted cashflows are compared with the net carrying amount plus goodwill to test for impairment triggers. Impairment is required whenever the cashflows are materially lower than carrying value.

## **I&M GROUP PLC**

### **NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS** **FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

#### **3. MATERIAL ACCOUNTING POLICIES (Continued)**

##### **(k) Leases**

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group uses the definition of a lease in IFRS 16.

##### **Group acting as a lessee**

At commencement or on modification of a contract that contains a lease component, the Group allocates consideration in the contract to each lease component on the basis of its relative standalone price. However, for leases of branches and office premises the Group has elected not to separate non-lease components and accounts for the lease and non-lease components as a single lease component.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove any improvements made to branches or office premises.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The Group determines its incremental borrowing rate by analysing its borrowings from various external sources and makes certain adjustments to reflect the terms of the lease and type of asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, if the Group changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

## **I&M GROUP PLC**

### **NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS** **FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

#### **3. MATERIAL ACCOUNTING POLICIES (Continued)**

##### **(k) Leases (continued)**

###### **Group acting as a lessee – continued**

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group presents right-of-use assets in ‘property and equipment’ and lease liabilities in ‘other liabilities’ in the statement of financial position.

###### **Short-term leases and leases of low-value assets**

The Group has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including leases of IT equipment. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

###### **Group acting as a lessor**

At inception or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone selling prices.

When the Group acts as a lessor, it determines at lease inception whether the lease is a finance lease or an operating lease.

To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

The Group applies the derecognition and impairment requirements in IFRS 9 to the net investment in the lease. The Group further regularly reviews estimated unguaranteed residual values used in calculating the gross investment in the lease.

##### **(l) Impairment of non-financial assets**

The carrying amounts of the Group’s non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset’s recoverable amount is estimated.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and group. Impairment losses are recognised in the profit or loss. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit (group of units) on a pro-rata basis.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

## **I&M GROUP PLC**

### **NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS** **FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

#### **3. MATERIAL ACCOUNTING POLICIES (Continued)**

##### **(m) Derivative financial instruments**

Derivative financial instruments are recognised initially at fair value on the date the derivative contract is entered into. Subsequent to initial recognition, derivative financial instruments are stated at fair value.

The fair value of forward exchange contracts is the amount of the mark to market adjustment at each reporting date.

##### **(n) Employee benefits**

###### **(i) Defined contribution plan**

The majority of the Group's employees are eligible for retirement benefits under a defined contribution plan.

The assets of the defined contribution scheme are held in a separate trustee administered guaranteed scheme managed by an insurance company. Retirement

The Group's contributions are recognised in profit or loss in the year to which they relate.

The Group also contributes to various national social security funds in the countries it operates. Contributions are determined by local statute and the Group's contributions are charged to the income statement in the year to which they relate.

###### **(ii) Leave accrual**

The monetary value of the unutilised leave by staff as at year end is recognised within accruals and the movement in the year is debited/credited to the profit or loss.

###### **(iii) Employee Share Ownership Plan (ESOP)**

The grant date fair value of equity-settled share-based payment awards (i.e. stock options) granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period in which the employees unconditionally become entitled to the awards. The amount recognised as an expense is adjusted to reflect the number of share awards for which the related service and non-market performance vesting conditions are expected to be met such that the amount ultimately recognised as an expense is based on the number of share awards that do meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant-date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

##### **(o) Share capital and share issue costs**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of an equity instrument are deducted from initial measurement of the equity instruments.

##### **(p) Earnings per share**

Earnings per share are calculated based on the profit attributable to owners of the company divided by the number of ordinary shares. Diluted earnings per share are computed using the weighted average number of equity shares and dilutive potential ordinary shares outstanding during the year.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (q) Dividends

Dividends are charged to equity in the period in which they are declared. Proposed dividends are not accrued until they have been ratified at the Annual General Meeting.

##### (r) Contingent liabilities

Letters of credit, acceptances and guarantees are not recognised and are disclosed as contingent liabilities. Estimates of the outcome and the financial effect of contingent liabilities is made by management based on the information available up to the date the financial statements are approved for issue by the directors. Any expected loss is charged to profit or loss.

##### (s) Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Restructuring provisions comprise lease termination penalties and employee termination payments. Provisions are not recognised for future operating losses.

##### (t) Fiduciary activities

The Group commonly acts as Trustees and in other fiduciary capacities that result in the holding or placing of assets on behalf of individuals, trusts, retirement benefits plans and institutions. These assets and income arising thereon are excluded from these financial statements, as they are not assets of the Group.

##### (u) Comparative information

Where necessary, comparative figures have been restated to conform with changes in presentation in the current year.

##### (v) Non-current assets held for sale

Non-current assets are expected to be recovered primarily through sale rather than through continuing use, are classified as held for sale. Immediately before classification as held for sale, the assets, or components of a disposal, are re-measured in accordance with the Group's accounting policies. Thereafter, generally the assets, or disposal, are measured at the lower of their carrying amount and fair value less cost to sell. For non-financial assets, fair value takes into account the highest and best use either on a standalone basis or in combination with other assets or other assets and liabilities.

Any impairment loss on a disposal is first allocated to goodwill, and then to remaining assets and liabilities on pro rata basis, except that no loss is allocated to financial assets, deferred tax assets and employee benefit assets which continue to be measured in accordance with the Bank's accounting policies. Impairment losses on initial classification as held for sale and subsequent gains or losses on re-measurement are recognised in profit or loss. Gains are not recognised in excess of any cumulative impairment loss.

##### (w) Operating segments

An operating segment is a component of the Group engaged in business activities, whose operating results are reviewed regularly by management in order to make decisions about resources to be allocated to segments and assessing segment performance.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (w) Operating segments (continued)

The Group's identification of segments and the measurement of segment results is based on the Group's internal reporting to the chief operating decision makers, comprising of the Group's management committees. Transactions between segments are priced at market-related rates.

The Group is required to disclose information to the users of its financial statements to evaluate the nature and financial effects of the business activities in which it engages and the economic environments in which it operates in compliance with IFRS 8. An operating segment is a component of the Group engaged in business activities, whose operating results are reviewed regularly by management to make decisions about resources to be allocated to segments and assessing segment performance.

Identification of segments and the measurement of segment results is based on the Group's internal reporting to management. Management has determined the operating segments based on the reports reviewed by the Group's Chief Executive with the assistance of the Group's Executive Committee (GEXCO) and the Group Asset and Liability Committee (GALCO). The Group has therefore segmented its business based on geographical location namely, Kenya, Tanzania, Rwanda, Uganda and Mauritius. This is in line with Group reporting reports. The geographical spread (across borders) is used as a part of performance analysis as disclosed in Note 7.

##### (x) New standards, amendments and interpretations

###### (i) *New standards, amendments and interpretations effective and adopted during the year*

The Group and Company has adopted the following new standards and amendments during the year ended 31 December 2023, including consequential amendments to other standards with the date of initial application by the Group and Company being 1 January 2023. The nature and effects of the changes are as explained here in.

<b>New standards or amendments</b>	<b>Effective for annual period beginning or after</b>
— IFRS 17 Insurance Contracts, including amendments to Initial Application of IFRS 17 and IFRS 9 – Comparative Information	1 January 2023
— Disclosure of Accounting Policy (Amendments to IAS 1 and IFRS Practice Statement 2)	1 January 2023
— Definition of Accounting Estimate (Amendments to IAS 8)	1 January 2023
— Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction – Amendments to IAS 12 Income Taxes	1 January 2023
— International Tax Reform—Pillar Two Model Rules – Amendments to IAS 12	23 May 2023

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 3. MATERIAL ACCOUNTING POLICIES (Continued)

##### (x) New standards, amendments and interpretations (continued)

###### (i) *New standards, amendments and interpretations effective and adopted during the year – continued*

The Group did not early adopt new or amended standards in the year ended 31 December 2023. None of the standards had a material effect on the financial statements of the Group and Company.

###### (i) *New and amended standards and interpretations in issue but not yet effective for the year ended 31 December 2023*

A number of new standards, amendments to standards and interpretations are not yet effective for the year ended 31 December 2023 and have not been applied in preparing these financial statements.

The Group does not plan to adopt these standards early. These are summarised below:

<b>New standards or amendments</b>	<b>Effective for annual period beginning or after</b>
— Classification of liabilities as Current or Non-Current and Non-current Liabilities with Covenants (Amendments to IAS 1 Presentation of Financial Statements)	1 January 2024
— Lease Liability in a Sale and Leaseback – Amendments to IFRS 16	1 January 2024
— Supplier Finance Arrangements – Amendments to IAS 7 and IFRS 7	1 January 2024
— Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures)	Optional
— Lack of Exchangeability – Amendments to IAS 21	1 January 2025

All standards and interpretations will be adopted at their effective date (except for those standards and interpretations that are not applicable to the entity).

None of the standards is expected to have a material effect on the financial statements of the Group and Company.

#### 4. FINANCIAL RISK MANAGEMENT

This section provides details of the group's exposure to risk and describes the methods used by management to control risk.

##### **Financial risk**

The more significant types of risk to which the Group is exposed are credit risk, liquidity risk, market risk and operational risk. Market risk includes currency risk and interest rate risk.

##### (a) **Credit risk**

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's loans and advances to customers and other banks and investment securities.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 4. FINANCIAL RISK MANAGEMENT (Continued)

##### (a) Credit risk (continued)

For risk management reporting purposes, the Group considers and consolidates all elements of credit risk exposure.

The Board of Directors of the individual Group entities have delegated responsibility of the management of credit risk to their respective Board Credit Committees. Further, each entity has its own and separate Credit Risk Management Committee that reports to its Board Credit Committee. The Group's credit exposure at the reporting date from financial instruments held or issued for trading purposes is represented by the fair value of instruments with a positive fair value at that date, as recorded on the statement of financial position.

##### *Derivative financial instruments*

Credit risk arising from derivative financial instruments is, at any time, limited to those with positive fair values, as recorded on the statement of financial position. In the case of credit derivatives, the Group is also exposed to or protected from the risk of default of the underlying entity referenced by the derivative. With gross-settled derivatives, the Group is also exposed to a settlement risk, being the risk that the Group honours its obligation but the counterparty fails to deliver the counter-value.

The Group makes available to its customers guarantees which may require that the Group makes payments on their behalf and enters into commitments to extend credit lines to secure their liquidity needs. Letters of credit and guarantees (including standby letters of credit) commit the Group to make payments on behalf of customers in the event of a specific act, generally related to the import or export of goods. Such commitments expose the Group to similar risks to loans and are mitigated by the same control processes and policies.

##### *Credit-related commitment risks*

The Board of Directors of the individual Group entities have delegated responsibility of the management of credit risk to their respective Board Credit Committees. Further, each entity has its own and separate Credit Risk Management Committee that reports to its Board Credit Committee. The Group's credit exposure at the reporting date from financial instruments held or issued for trading purposes is represented by the fair value of instruments with a positive fair value at that date, as recorded on the statement of financial position.

The risk that the counter-parties to trading instruments might default on their obligation is monitored on an on-going basis. In monitoring credit risk exposure, consideration is given to trading instruments with a positive fair value and to the volatility of the fair value of trading instruments over their remaining life.

To manage the level of credit risk, the Group deals with counter parties of good credit standing wherever possible and when appropriate, obtains collateral.

An assessment of the extent to which fair values of collaterals cover existing credit risk exposure on loans and advances to customers is highlighted below.

To determine impairment of loans and advances, the Group assesses whether it is probable that it will be unable to collect all principal and interest according to the contractual terms of the loans and advances.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 4. FINANCIAL RISK MANAGEMENT (Continued)

##### (a) Credit risk (continued)

###### *Exposure to credit risk*

The Group also monitors concentrations of credit risk that arise by industry and type of customer in relation to loans and advances to customers by carrying a balanced portfolio. The Group also monitors concentrations of credit risk that arise by industry or sector and type of customer in relation to Group loans and advances to customers by carrying a balanced portfolio. The Group concentration is on manufacturing, wholesale and retail and real estate and all are within internal policy limits on single sector concentration.

To determine impairment of loans and advances, the Group assesses whether it is probable that it will be unable to collect all principal and interest according to the contractual terms of the loans and advances.

##### (i) Credit quality analysis – Loans and advances to customers

The following table sets out information about the credit quality of financial assets measured at amortised cost, FVOCI debt instruments. Unless specifically indicated, for financial assets, the amounts in the table represent gross carrying amounts. For loan commitments and financial guarantee contracts, the amounts in the table represent the amounts committed or guaranteed, respectively. See accounting policy on note 3(f)(iii) for the explanation of the terms: 12-month ECL, lifetime ECL and credit-impaired.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 4. FINANCIAL RISK MANAGEMENT (Continued)

##### (a) Credit risk (continued)

##### (i) Credit quality analysis – Loans and advances to customers – continued

###### Impaired loans and securities

Impaired loans and securities are loans for which the Group determines that it is probable that it will be unable to collect all principal and interest due according to the contractual terms of the loan agreement(s). These loans are graded 3 (Substandard) to 5 (Loss) in the Group's internal credit risk and grading system.

###### Neither past due nor impaired

The credit quality of the portfolio of loans and advances that were neither past due nor impaired can be assessed with reference to the Group's internal rating system. All such loans must be performing in accordance with the contractual terms and are expected to continue doing so. Loans in this category are fully protected by their current sound net worth and paying capacity of the borrower. These loans and advances are categorised as normal in line with the prudential guidelines of the respective jurisdictions.

###### Past due but not impaired loans

These are loans where contractual interest or principal payments are past due but the Group believes that impairment is not appropriate on the basis of the level of security/collateral available and/or the stage of collection of amounts owed to the Group. These loans are stage 2 (Watch) in the Group's internal credit risk and grading system.

##### (ii) Credit quality analysis – Trade receivables

The Group's exposure to trade receivables credit risk is influenced mainly by the individual characteristics of each customer. The Group uses an allowance matrix, using the simplified approach, to measure the lifetime ECLs of trade receivables. Loss rates (Current -4%, 30-90days – 5%, 91-180days - 24%, 180-360days - 87% and Over 360days - 100%) are calculated using a 'roll rate' method based on the probability of a receivable progressing through successive stages of delinquency to write-off.

<b>2023:</b>	<b>Gross KShs'000</b>	<b>Impairment KShs'000</b>	<b>Net KShs'000</b>	<b>Credit impaired</b>
Current	39,142	3,517	35,625	No
<b>Past due:</b>				
30-90 days	22,619	3,698	18,921	No
91-180 days	25,675	16,020	9,655	Yes
180-360 days	67,070	57,330	9,740	Yes
Over 360 days	21,208	21,208	-	Yes
	<u>175,714</u>	<u>101,773</u>	<u>73,941</u>	

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 4. FINANCIAL RISK MANAGEMENT (Continued)

##### (a) Credit risk (continued)

##### (ii) Credit quality analysis – Trade receivables – continued

2022:	Gross KShs'000	Impairment KShs'000	Net KShs'000	Credit impaired
Current	67,376	5,189	62,187	No
<b>Past due:</b>				
30-90 days	15,583	2,350	13,233	No
91-180 days	22,975	11,795	11,180	Yes
180-360 days	77,993	51,744	26,249	Yes
Over 360 days	20,470	20,470	-	Yes
	<u>204,397</u>	<u>91,548</u>	<u>112,849</u>	

##### Impairment loss movement on trade receivables

	2023 KShs'000	2022 KShs'000
At 1 January	91,548	69,581
Charge for the year	12,422	22,174
Write off during the year	( 2,927)	( 243)
Translation difference	730	36
<b>At 31 December</b>	<u>101,773</u>	<u>91,548</u>

Loss rates are based on actual credit loss experience over the past three years. All trade receivables that are past due over 360 days are considered uncollectible and fully impaired. All financial assets that are contractually 90 days in arrears are automatically classified as impaired under IFRS 9. The Group therefore is of the view that due to the short term nature of these instruments, the impact of economic conditions is immaterial. Consequently, the impact of forward-looking information has not been taken on these financial statements.

The risk management committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered.

The Group's review includes, if they are available; financial statements, credit agency information, industry information and in some cases references from other credible sources. Credit limits are established for each customer and reviewed frequently. Any credit exceeding those limits require approval from the risk management committee.

In addition, the Group limits its exposure to credit risk from trade receivables by establishing a maximum payment period of six months for customers. A significant part of the Group's customers have been transacting with the larger banking group.

The Group does not require collateral in respect of trade and other receivables. The Group does not have trade receivable and contract assets for which no loss allowance is recognised because of collateral.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 4. FINANCIAL RISK MANAGEMENT (Continued)

##### (a) Credit risk (continued)

##### (iii) Credit quality analysis – Financial instruments

The table below best represents the Group's exposure to credit risk in regard to financial assets other than loans and advances to customers. as at 31 December 2023.

	Group		Company	
	2023 KShs'000	2022 KShs'000	2023 KShs'000	2022 KShs'000
Balances with central banks (Note 17)	34,774,324	17,632,125	-	-
Items in the course of collection (Note 18)	399,994	446,526	-	-
Loans and advances to banks (Note 19)	59,176,989	21,467,182	312,326	-
Financial assets at fair value through other comprehensive income (FVOCI) - Debt instruments (Note 21)	60,287,145	52,991,148	876,832	925,055
Other financial assets at amortised cost; Government securities (Note 21)	54,276,095	43,605,472	-	-
Due from group companies (Note 37)	-	-	3,264,319	864,255
	<u>208,914,547</u>	<u>136,142,453</u>	<u>4,453,477</u>	<u>1,789,310</u>

##### (iv) Collateral and other security enhancements

The Group holds collaterals against loans and advances to customers in the form of mortgage interests over property, other registered securities over assets, and guarantees. Estimate of fair value are based on the value of collateral assessed at the time of borrowing, and generally are not updated except when a loan is individually assessed as impaired. Collateral generally is not held over loans and advances to banks, except when securities are held as part of reverse repurchase and securities borrowings activity. Collateral usually is not held against investment securities, and no such collateral was held at 31 December 2023 nor 2022.

An estimate of the fair value of collateral and other security enhancements held against financial assets is shown below:

Group	2023 KShs'000	2022 KShs'000
Fair value of collateral held – against impaired loans	<u>24,753,564</u>	<u>12,934,863</u>

The Group routinely obtains collateral and security to mitigate credit risk. The Group ensures that any collateral held is sufficiently liquid, legally effective, enforceable and regularly reassessed. Before attaching value to collateral, business holding approved collateral must ensure that they are legally perfected. Security structures and legal covenants are subject to regular review, at least annually, to ensure that they remain fit for purpose and remain consistent with accepted local market practice.

**I&M GROUP PLC**

**NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

4. **FINANCIAL RISK MANAGEMENT (Continued)**

(a) **Credit risk (continued)**

(iv) *Collateral and other security enhancements – continued*

The principal collateral types held by the Group for loans and advances are:

- Mortgages over residential properties.
- Charges over business assets such as premises, inventory and accounts receivable.
- Charges over financial instruments such as debt securities and equities.

Valuation of collateral taken will be within agreed parameters and will be conservative in value. The valuation is performed by independent registered valuers only on origination or in the course of enforcement actions. Within the corporate sectors, collateral for impaired loans including guarantees and insurance is reviewed regularly and at least annually to ensure that it is still enforceable, and that the impairment allowance remains appropriate given the current valuation. The Group will consider all relevant factors, including local market conditions and practices, before any collateral is realized.

**FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

4. **FINANCIAL RISK MANAGEMENT (Continued)**

(a) **Credit risk (continued)**

(v) *Amounts arising from ECL*

**Inputs, assumptions and techniques used for estimating impairment**

See accounting policy in Note 3(f)(iii).

**Significant increase in credit risk**

When determining whether the risk of default on a financial instrument has increased significantly since initial recognition, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information an analysis, based on the Group's historical experience and expert credit assessment and including forward-looking information.

As a backstop, the Group considers that a significant increase in credit risk occurs no later than when an asset is more than 30 days past due. Days past due are determined by counting the number of days since the earliest elapsed due date in respect of which full payment has not been received. Due dates are determined without considering any grace period that might be available to the borrower.

The Group uses three criteria for determining whether there has been a significant increase in credit risk:

- a quantitative test based on movement in PD;
- a backstop of 30 days past due is applied; and
- quantitative indicators.

**Credit risk grading**

Other than for loans and advances to banks and investment securities where the Group relies on internal credit rating models, the Group relies substantially on macroeconomic variables and historic data in the market it operates in for credit risk grading that reflect its assessment of the probability of default of individual counterparties.

In addition, the below supplements

- by Borrower and loan specific information collected at the time of application (such as disposable income, and level of collateral for retail exposures; and turnover and industry type for wholesale exposures.
- External data such as credit bureau scoring information on individual borrowers.
- Expert judgement from the Credit Risk Officer to be fed into the final credit rating for each exposure. This allows for considerations which may not be captured as part of the other data inputs into the model.

The credit grades are calibrated such that the risk of default increases exponentially at each higher risk grade.

## **I&M GROUP PLC**

### **NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

#### **4. FINANCIAL RISK MANAGEMENT (Continued)**

##### **(a) Credit risk (continued)**

##### **(v) Amounts arising from ECL – continued**

The following are additional considerations for each type of portfolio held by the Group.

##### **Customer loans and advances**

After the date of initial recognition, the payment behaviour of the borrower is monitored on a periodic basis to develop a behavioural score. Any other known information about the borrower which impacts their creditworthiness. A relationship manager will also incorporate any updated or new information/credit assessments into the credit system on an ongoing basis.

##### **Generating the term structure of PD**

Credit risk grades are a primary input into the determination of the term structure of PD for loans and advances. The Group collects performance and default information about its credit risk exposures analysed by country and borrower as well as by credit risk grading.

The Group employs statistical models to analyse the data collected and generate estimates of the remaining lifetime PD of exposures and how these are expected to change as a result of the passage of time.

This analysis includes the identification and calibration of relationships between changes in default rates and changes in key macro-economic factors as well as in-depth analysis of the impact of certain other factors (e.g. forbearance experience) on the risk of default. For most exposures, key macro-economic indicators include: GDP growth, benchmark interest rates and exchange rate.

Based on advice from the Risk Committees and economic experts and consideration of a variety of external actual and forecast information, the Group formulates a 'base case' view of the future direction of relevant economic variables as well as a representative range of other possible forecast scenarios (see discussion below on incorporation of forward-looking information). The Group then uses these forecasts to adjust its estimates of PDs.

The Group has applied a simpler methodology (lifetime ECL) for its other exposures including lease receivables and trade receivables.

##### **Modified financial assets**

The contractual terms of a loan may be modified for a number of reasons, including changing market conditions, customer retention and other factors not related to a current or potential credit deterioration of the customer.

An existing loan whose terms have been modified may be derecognised and the renegotiated loan recognised as a new loan at fair value in accordance with the accounting policy set out in Note 3(f)(v).

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 4. FINANCIAL RISK MANAGEMENT (Continued)

##### (a) Credit risk (continued)

##### (v) *Amounts arising from ECL – continued*

##### **Modified financial assets – continued**

When the terms of a financial asset are modified and the modification does not result in derecognition, the determination of whether the asset's credit risk has increased significantly reflects comparison of:

- its remaining lifetime PD at the reporting date based on the modified terms; with and;
- the remaining lifetime PD estimated based on data at initial recognition and the original contractual terms.

The Group renegotiates loans to customers in financial difficulties (referred to as 'forbearance activities') to maximise collection opportunities and minimise the risk of default. Loan forbearance is granted on a selective basis if the debtor is currently in default on its debt or if there is a high risk of default, there is evidence that the debtor made all reasonable efforts to pay under the original contractual terms and the debtor is expected to be able to meet the revised terms.

The revised terms usually include extending the maturity, changing the timing of interest payments and amending the terms of loan covenants.

Generally, forbearance is a qualitative indicator of a significant increase in credit risk and an expectation of forbearance may constitute evidence that an exposure is credit-impaired/in default. A customer needs to demonstrate consistently good payment behaviour over a period of time (at least one year) before the exposure is no longer considered to be credit-impaired/ in default or the PD is considered to have decreased such that the loss allowance reverts to being measured at an amount equal to 12-month ECL.

During the year, the Group has offered various forms of assistance to customers. The assistance provided has included arrangements such as temporary deferral of principal and interest repayments, replacing principal and interest with interest only repayments, and extension of loan maturity dates. Refer to Key Judgements and Estimates in this Note for details of the impact of deferrals when determining if there has been a Significant Increase in Credit Risk (SICR).

The loan repayment deferral package is considered to be a loan modification under IFRS 9. This either results in the loan being derecognised and replaced with a new loan (substantial modification) or the existing loan continuing to be recognised (non-substantial modification). The table below shows the outstanding balance as at 31 December 2023 of all loans that have been modified (both substantial and non-substantial modifications):

If the terms of a financial asset are modified or an existing financial asset is replaced with a new one for either credit or commercial reasons, an assessment is made to determine if the changes to the terms of the existing financial asset are considered substantial. This assessment considers both changes in cash flows arising from the modified terms as well as changes in the overall instrument risk profile; for example, changes in the principal (credit limit), term, or type of underlying collateral. Where a modification is considered non-substantial, the existing financial asset is not derecognised and its date of origination continues to be used to determine SICR. Where a modification is considered substantial, the existing financial asset is derecognised and a new financial asset is recognised at its fair value on the modification date, which also becomes the date of origination used to determine SICR for this new asset.

## **I&M GROUP PLC**

### **NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS** **FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

#### **4. FINANCIAL RISK MANAGEMENT (Continued)**

##### **(a) Credit risk (continued)**

##### **(v) Amounts arising from ECL – continued**

##### **Definition of default**

The Group considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or
- the borrower is past due more than 90 days on any material credit obligation to the Group. Overdrafts are considered as being past due once the customer has breached an advised limit or been advised of a limit smaller than the current amount outstanding.

In assessing whether a borrower is in default, the Group considers indicators that are:

- qualitative – e.g. breaches of covenant;
- quantitative – e.g. overdue status and non-payment on another obligation of the same issuer to the Group; and
- based on data developed internally and obtained from external sources.

Inputs into the assessment of whether a financial instrument is in default and their significance may vary over time to reflect changes in circumstances.

The definition of default largely aligns with that applied by the Group for regulatory capital purposes.

##### **Incorporation of forward-looking information**

For banking subsidiaries, the Group incorporates forward-looking information into both its assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL. Based on advice from the respective country Assets and Liabilities Committee (ALCO) and consideration of a variety of external actual and forecast information, the banking subsidiaries formulate a ‘base case’ view of the future direction of relevant economic variables as well as a representative range of other possible forecast scenarios. This process involves developing two additional economic scenarios and considering the relative probabilities of each outcome. External information includes economic data and forecasts published by governmental bodies and monetary authorities in the countries where the Bank operates, supranational organisations such as the International Monetary Fund (IMF), World Bank and selected private-sector and academic forecasters.

IFRS 9 requires an entity to measure expected credit losses of a financial instrument in a way that reflects an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes.

The Bank is therefore required to formulate a ‘base case’ view of the future direction of relevant economic variables as well as a representative range of other possible forecast scenarios. Two additional economic scenarios (Upside and Downside) were incorporated, and relative probabilities assigned to each outcome(weights).

The banking subsidiaries have identified and documented key drivers of credit risk and credit losses for each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables, credit risk and credit losses.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 4. FINANCIAL RISK MANAGEMENT (Continued)

##### (a) Credit risk (continued)

##### (v) *Amounts arising from ECL – continued*

##### **Incorporation of forward-looking information – continued**

In each country, the Banking Industry non-performing loans (NPL %) was a reasonable approximation to the default risk. The correlation between the Banking Industry non-performing loans (NPL%) with the macroeconomic factors was then inferred to the Bank's predicated Probabilities of Default.

Further, in determining the economic scenarios to be applied, each of the economic variable was adjusted either upside or downside using the historical standard deviation.

##### **Scenario Development**

##### (a) *Weights*

The Group has considered a probability weighted out-come of three scenarios in its scenario analysis:

- Base Case- These are the forecasted probabilities of default under current normal macro-economic conditions.
- Pessimistic Case/ Downside - These are the forecasted probabilities of default under adverse macro-economic conditions obtained by stressing the current macro-economic variables by the mean standard deviation.
- Optimistic Case/ Upside - These are the forecasted probabilities of default under a positive macro-economic outlook obtained by stressing the current macro-economic variables by the mean standard deviation.

The weights are developed based on the average number of loans under default for the past 24 months considering the distribution of the default rates around the mean standard deviation.

##### (b) *Forecasted rates*

The Group has performed a regression analysis of the various macro-economic variables and the historical default rates. In coming up with the relevant macro-economic variables the following have been considered:

- The degree of correlation between the macro factors and the default rates- A 40%-degree correlation coefficient between the macro-variables and the historical default rates is deemed to be significant for variable selection.
- The second criterion is to assess whether the resulting correlations are logical with the expected relationship. If the correlation relationship meets the criteria, the variable is selected, otherwise it is ignored irrespective of the strength of the correlation.
- Confidence level- A p-value of 5% has been used to provide a 95% level of confidence in the regression model.
- The degree in which the independent i.e., macro-economic variables explain how much of the variation in the predicted variable i.e., default rates. The statistical metric taken into account is an adjusted R-squared of 40%.

The above statistical criterion forms the basis of macro -economic variables selection to forecast the 12-month point in time expected default rates.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 4. FINANCIAL RISK MANAGEMENT (Continued)

##### (a) Credit risk (continued)

##### (v) Amounts arising from ECL – continued

##### Scenario Development - continued

##### (c) Forecasted rates - continued

The general expectation is that as new data on default rates and changes in macro-economic factors is brought in, the logistic regression model will pick a new set of relevant macro-factors based on the statistical metrics mentioned above.

A scenario forecast of default rates and the selected macro-economic variables based on the correlation coefficients is then performed to consider the three scenarios as follows:

- Base case- In this instance it is assumed the forecasted macro-factors will be largely consistent with the historical macro-factors therefore, no significant spikes are expected in the macro-factors and hence resulting to default rates that are relatively normal to those observed historically.
- Pessimistic/Downside forecasts- In this instance, it is assumed there will be huge positive spikes in the forecasted **macro-economic** variables that will consequently result to higher default rates taking into consideration the correlation coefficients.
- Optimistic/Upside forecasts- In this instance, it is assumed there will be negative spikes in the forecasted macro-economic variables that will consequently result to lower default rates taking into consideration the correlation coefficients.

In determining the likelihood of each of the macroeconomic scenarios based on sectors, a weighting of 63% (base case), 21% (upside case) and 17% (downside case) was applied for Kenya.

The assessment of SICR and the calculation of ECL both incorporate forward-looking information. The Bank has performed historical analysis and identified the key economic variables impacting credit risk and expected credit losses for each portfolio. These economic variables and their associated impact on PD, EAD and LGD vary by financial instrument.

The economic scenarios used as at 31 December 2023 included the following ranges of key indicators based on sectors.

Agriculture	Weighting			
	Coefficients	Base	Upside	Downside
		63%	21%	17%
Central Bank Rate	33.96840	12.88%	13.53%	12.23%

Constant	(3.58050)	-	-	-

Some sectors did not have correlations with macro-economic factors. These include Energy & Water, Manufacturing, Personal & Household, Real Estate and Tourism, Hotels & Restaurants. For these sectors, either NPL ratios were noted as 0% or models failed to meet the predetermined thresholds. In view of this, management judgements were applied by taking a minimum PD of 0.05% for purposes of ECL calculation and adjusting by the average macro adjustments from Building & Construction and Mining & Quarrying sectors respectively.

Other forward-looking considerations not otherwise incorporated within the above scenarios, such as the impact of any regulatory, legislative, or political changes, have been considered, but are not deemed to have a material impact on therefore no adjustment has been made to the ECL for such factors. This is reviewed and monitored for appropriateness on a quarterly basis.

In determining the likelihood of each of the macroeconomic scenarios based on sectors, a weighting of 58.3% (base case), 29.7% (upside case) and 12.0% (downside case) was applied for Tanzania.

In Rwanda, the Bank has identified and documented key drivers of credit risk and credit losses for each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables, credit risk and credit losses.

**I&M GROUP PLC**

**NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

**4. FINANCIAL RISK MANAGEMENT (Continued)**

**(a) Credit risk (continued)**

*(v) Amounts arising from ECL – continued*

**Incorporation of forward-looking information – continued**

In 2023, the likelihood of different economic scenarios was adjusted to reflect changing circumstances. A moderate economic outcome (base case) was assigned a 54.17% chance, with a stronger economic performance (upside case) at 29.17% and a weaker performance (downside case) at 16.67%. This differed slightly from 2022's weighting, which placed more emphasis on the base case (62.5%).

To predict how these scenarios might impact investments, analysts examined historical data (3-5 years) on key economic indicators and their relationship to defaults and losses across various financial assets.

The economic scenarios used as at 31 December included the following ranges of key indicators:

Macro-Economic variable	2023		
	Base	Upside	Downside
	%	%	%
<b>Weighting</b>	<b>54.17%</b>	<b>29.17%</b>	<b>16.67%</b>
Public debt to GDP	78.00%	79.00%	77.00%
T-Bills 91 days	8.70%	9.10%	8.20%
Reverse REPO	7.00%	7.30%	6.80%

The backward elimination multiple regression model led to the following macro-economic factors per sector for the year ended 31 December 2023;

2023	
i) Building & construction	Public debt to GDP
ii) Personal & household	Ninety-one-day Treasury bills
iii) Social, community and personal	Reverse REPO
iv) Tourism, restaurants and hotels	Reverse REPO
v) Trade	Reverse REPO
	Public debt to GDP

For Uganda, in determining the likelihood of each of the macroeconomic scenarios based on sectors, a weighting of 68.2% (base case), 10.6% (upside case) and 21.2% (downside case) was applied.

There have been changes to the types of forward-looking variables (key economic drivers) used as model inputs in the current year.

The Bank's historical Probabilities of Default (PDs) for purposes of incorporating forward looking information were modelled at portfolio sector level using transition matrices that analysed the movements of loans from one classification (stage) to another over the past 5 years.

## **I&M GROUP PLC**

### **NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS** **FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

#### **4. FINANCIAL RISK MANAGEMENT (Continued)**

##### **(a) Credit risk (continued)**

##### **(v) Amounts arising from ECL – continued**

##### **Incorporation of forward-looking information – continued**

Linear correlations between the macroeconomic factors and the Bank's Sector NPL Ratios (Non- Performing Loans to Gross Loans (NPL %) were individually tested. Macro-economic variables to be used for regression were then selected based on:

- Correlation Coefficient of at least 40% (Guildford's criterion)
- No counter intuitive relationship with the NPL ratios

A backward elimination multiple regression model was then performed between the Bank NPL Ratios and all the macro-economic factors selected.

Two approaches were considered to compute the Macro-adjusted PDs using the Forecasted NPL ratios above i.e linear model approach and direct inference approach.

Probabilities of default from the linear model take precedence over Direct Inference subject to the set conditions in the analysis.

If the Direct inference approach and linear model present significant deviation from recent trends and Historical PDs, the historical PD was adjusted by an average of the macro-adjustments from the sectors where modelling was possible.

Regression analysis was used to derive variables below that were selected to incorporate forward looking information for each sector.

In determining the likelihood of the base case, upside case and downside case macroeconomic scenarios for each respective sector, the following weights were applied.

<b>Base case</b>	<b>Downside case</b>	<b>Upside case</b>
68.20%	21.20%	10.60%

Direct inference statistical method was used in incorporating forward looking information for Manufacturing, Trade, Transport & Communication, Building & Construction, Community, Social services sectors.

##### **Measurement of ECL**

The key inputs into the measurement of ECL are the term structure of the following variables:

- probability of default (PD);
- loss given default (LGD);
- exposure at default (EAD).

These parameters are generally derived from internally developed statistical models and other historical data. They are adjusted to reflect forward-looking information as described above.

PD estimates are estimates at a certain date, which are calculated based on statistical models, and assessed using rating tools tailored to the various categories of counterparties and exposures.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 4. FINANCIAL RISK MANAGEMENT (Continued)

##### (a) Credit risk (continued)

##### (v) Amounts arising from ECL – continued

###### *Measurement of ECL*

These statistical models are based on internally compiled data comprising both quantitative and qualitative factors. Where it is available, market data may also be used to derive the PD for loans and advances to banks and investment securities.

LGD is the magnitude of the likely loss if there is a default. The Group estimates LGD parameters based mainly on the counterparties' collateral and also on the history of recovery rates of claims against defaulted counterparties. The LGD models consider the structure, collateral, seniority of the claim, counterparty industry and recovery costs of any collateral that is integral to the financial asset. They are calculated on a discounted cash flow basis using the effective interest rate as the discounting factor.

EAD represents the expected exposure in the event of a default. The Group derives the EAD from the current exposure to the counterparty and potential changes to the current amount allowed under the contract including amortisation. The EAD of a financial asset is its gross carrying amount. For lending commitments and financial guarantees, the EAD includes the amount drawn, as well as potential future amounts that may be drawn under the contract, which are estimated based on historical observations and forward-looking forecasts.

As described above, and subject to using a maximum of a 12-month PD for financial assets for which credit risk has not significantly increased, the Group measures ECL considering the risk of default over the maximum contractual period (including any borrower's extension options) over which it is exposed to credit risk, even if, for risk management purposes, the Group considers a longer period. The maximum contractual period extends to the date at which the Group has the right to require repayment of an advance or terminate a loan commitment or guarantee.

Where modelling of a parameter is carried out on a collective basis, the financial instruments are grouped on the basis of shared risk characteristics that include:

- segment type;
- credit risk grading; and
- geographic location of the borrower.

The groupings are subject to regular review to ensure that exposures within a particular group remain appropriately homogeneous.

###### *ECL - Sensitivity analysis*

Given current economic uncertainties and the judgment applied to factors used in determining the expected default of borrowers in future periods, expected credit losses reported by the Group should be considered as a best estimate within a range of possible estimates.

**(b) Liquidity risk**

Liquidity refers to the efficiency or ease with which an asset or security can be converted into ready cash to meet obligations as they fall due. The definition of liquidity risk is the risk that the Group is unable to meet its obligations as they fall due as a result of a sudden, and potentially protracted, increase in net cash outflows. Such outflows would deplete available cash resources for customer lending, trading activities and investments.

The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. The daily liquidity position is monitored and regular liquidity stress testing is conducted under a variety of scenarios covering both normal and more severe market conditions. All liquidity policies and procedures are subject to review and approval by Asset and Liabilities Committee. The Asset and Liabilities Committee (ALCO) also monitors the liquidity gap and at first instance would source funds from market using interbank borrowings and as a last resort, use repo and reverse repo arrangements with the central banks. The Group has also arranged for long term funding as disclosed under Note 31 and Note 32.

The liquidity ratios at the reporting date and during the reporting period (based on month end ratios) were as follows;

	Kenya		Tanzania		Rwanda		Uganda	
	2023	2022	2023	2022	2023	2022	2023	2022
At 31 December	39%	39%	29%	26%	50%	42%	52%	52%
Average for the period	39%	42%	27%	32%	45%	46%	52%	57%
Highest for the period	42%	47%	35%	29%	50%	54%	57%	63%
Lowest for the period	37%	39%	23%	24%	39%	39%	46%	52%

Deposits from customers represent business transaction, personal transaction, savings, call and fixed deposit balances, which past experience has shown to be stable.

##### (c) Market risk

Market risk is the risk that changes in market prices, such as interest rate, equity prices, foreign exchange rates and credit spread (not relating to changes in the obligator's/issuer's credit standing) will affect the Group's income or the value of its holdings of financial instruments. The objective of the Groups market risk is to manage and control market risk exposures within acceptable parameters to ensure the Group's solvency while optimising the return on risk.

All trading instruments are subject to market risk, the risk that the future changes in market conditions may make an instrument less valuable or more onerous. The Group manages its use of trading instruments in response to changing market conditions.

The Board of Directors of the individual Group entities have delegated responsibility for management of Market Risk to their respective Board Risk Committees. Exposure to market risk is formally managed within Risk Limits and Policy Guidelines issued by the Board, on recommendation of the Board Risk Committee. ALCO, a Management Committee is charged with the responsibility of ensuring implementation and monitoring of the risk management framework in line with policy guidelines. The Group is primarily exposed to Interest Rate and Foreign Exchange Risk. The policy guidelines and procedures in place are adequate to effectively manage these risks.

##### *Exposure to interest rate risk*

This is the risk of loss from fluctuations in the future cash flows of fair values of financial instruments because of a change in market interest rates. Interest rate risk is managed principally through monitoring interest rate gaps. A summary of the group's interest rate gap position reflecting assets and liabilities at carrying amounts, categorised by the earlier of contractual re-pricing or maturity dates is shown below.

Customer deposits up to three months represent transactional accounts, savings accounts and call deposit account balances, which past experience has shown to be stable and of a long term nature.

The Group's operations are subject to the risk of interest rate fluctuations to the extent that the interest earning assets (including investments) and interest bearing liabilities mature or re-price at different times or in differing amounts. Risk management activities are aimed at optimising net interest income, given market interest rate levels consistent with the Group's business strategies.

*Currency rate risk*

The Group is exposed to currency risk through transactions in foreign currencies. The Group's transactional exposure gives rise to foreign currency gains and losses that are recognised in the profit or loss. In respect of monetary assets and liabilities in foreign currencies, the Group ensures that its net exposure is kept to an acceptable level by buying and selling foreign currencies at spot rates when considered appropriate. The table below analyses the currencies which the Group is exposed to as at 31 December 2023 and 31 December 2022.

#### 4. FINANCIAL RISK MANAGEMENT (Continued)

##### (c) Market risk (continued)

###### *Currency risk – continued*

###### **Sensitivity analysis**

A reasonable possible strengthening or weakening of the USD, GBP, EUR against the Kenya shilling (KShs) would have affected the measurement of financial instruments denominated in foreign currency and effected equity and profit or loss by the amounts shown below. The analysis assumes that all other variables, in particular interest rates remain constant.

<b>At 31 December 2023</b>	<b>Profit or loss Strengthening/weakening of currency KShs'000</b>	<b>Equity net of tax Strengthening/weakening of currency KShs'000</b>
USD (± 2.5% movement)	555,554	388,888
GBP (± 2.5% movement)	4,290	3,003
EUR (± 2.5% movement)	9,800	6,860
<b>At 31 December 2022</b>	<b>Profit or loss Strengthening/weakening of currency KShs'000</b>	<b>Equity net of tax Strengthening/weakening of currency KShs'000</b>
USD (± 2.5% movement)	306,236	214,365
GBP (± 2.5% movement)	226	158
EUR (± 2.5% movement)	83,946	58,762

##### (d) Capital management

The Group's policy is to maintain a strong capital base so as to maintain regulatory, investor, creditor and market confidence and to sustain future development of business. The impact of the level of capital of shareholders' return is also recognized in addition to recognizing the need to maintain a balance between the higher returns that may be possible with greater gearing and the advantages and security afforded by sound capital position.

###### *Regulatory capital – Kenya*

The Central Bank of Kenya sets and monitors capital requirements for all banks.

The objective of the Central Bank of Kenya is to ensure that a bank maintains a level of capital which:

- Is adequate to protect its depositors and creditors;
- Is commensurate with the risks associated with its activities and profile
- Promotes public confidence in the bank.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 4. FINANCIAL RISK MANAGEMENT (Continued)

##### (d) Capital management (continued)

###### *Regulatory capital – Kenya – continued*

In implementing current capital requirements, the Central Bank of Kenya requires banks to maintain a prescribed ratio of total capital to total risk-weighted assets. Banks are expected to assess the Credit risk, Market risk and the Operational risk of the risk weighted assets to derive the ratios. The Capital adequacy and use of regulatory capital are monitored regularly by management employing techniques based on the guidelines developed by the Basel Committee, as implemented by the Central Bank of Kenya for supervisory purposes.

The Central Bank of Kenya requires a bank to maintain at all times:

- The minimum level of regulatory capital of KShs 1 billion.
- A core capital of not less than 10.5% of total risk weighted assets, plus risk weighted off-balance sheet items.
- A core capital of not less than 10.5% of its total deposit liabilities.
- A total capital of not less than 14.5% of its total risk weighted assets, plus risk weighted off-balance sheet items.

The Group and I&M Bank LIMITED's regulatory capital is analysed into two tiers:

- Tier 1 capital. This includes ordinary share capital, share premium, retained earnings and after deduction of investment in subsidiaries, goodwill, other intangible assets and other regulatory adjustments relating to items that are included in equity which are treated differently for capital adequacy purposes.
- Tier 2 capital. This includes 25% of revaluation reserves of property, subordinated debt not exceeding 50% of core capital, collective impairment allowances and any other approved reserves.

The risk based approach to capital adequacy measurement is applied to both on and off balance sheet items. Risk weights are assigned based on an assessment of the following:

- Credit risk arising from the possibility of losses associated with reduction of credit quality of borrowers or counterparties;
- Market risk is the risk of losses arising from movements in market prices pertaining to interest rate related instruments and foreign exchange risk;
- Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events.

###### *Regulatory capital – Tanzania*

The Bank of Tanzania sets and monitors capital requirements for the banking industry as a whole. The Bank of Tanzania has set among other measures, the rules and ratios to monitor adequacy of a bank's capital. In implementing current capital requirements, The Bank of Tanzania requires banks to maintain a prescribed ratio of total capital to total risk-weighted assets. The Bank's regulatory capital is analysed in two tiers:

- Tier 1 capital, which includes ordinary share capital, share premium, retained earnings, after deductions for prepaid expenses, goodwill, other intangible assets, and other regulatory adjustments relating to items that are included in equity but are treated differently for capital adequacy purposes.
- Tier 2 capital, which includes qualifying subordinated liabilities, collective impairment allowances and the element of fair value reserve relating to unrealized gains on equity instruments classified as FVOCI.

## I&M GROUP PLC

#### 4. FINANCIAL RISK MANAGEMENT (Continued)

##### (d) Capital management (continued)

###### *Regulatory capital – Tanzania – continued*

Various limits are applied to elements of the capital base such as qualifying Tier 2 Capital cannot exceed Tier 1 Capital and qualifying subordinated debt may not exceed 50 percent of Tier 1 Capital. There are also restrictions on the amount of collective impairment allowances that may be included as part of Tier 2 Capital. Tier 1 Capital (Core capital) is also subjected to various limits such as Tier 1 Capital should not be less than 10 percent of the risk weighted assets and premises investments should not exceed 50 percent of the Core capital and movable assets should not exceed 20% of Core capital.

The Bank's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of business. The impact of the level of capital of shareholders' return is also recognized in addition to recognizing the need to maintain a balance between the higher returns that may be possible with greater gearing and the advantages and security afforded by sound capital position.

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 4. FINANCIAL RISK MANAGEMENT (Continued)

##### (d) Capital management (continued)

###### *Regulatory capital – Rwanda*

The Bank's objectives when managing capital, which is a broader concept than the "equity" on the balance sheet, are:

- To comply with the capital requirements set by the National Bank of Rwanda;
- To safeguard the Bank's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders;
- To maintain a strong capital base to support the development of its business.

###### *Regulatory capital – Rwanda – continued*

The National Bank of Rwanda (BNR) sets and monitors capital requirements for the banking industry as a whole. In implementing its current capital requirements, BNR, requires Banks in Rwanda to maintain a prescribed ratio of total capital to total risk-weighted assets.

The Bank's regulatory capital consists only of Tier 1 capital, which includes ordinary share capital, retained earnings, revaluation reserves and statutory reserves. The Bank's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The impact of the level of capital on shareholders' return is also recognized and the Bank recognizes the need to maintain a balance between the higher returns that might be possible with greater gearing and the advantages and security afforded by a sound capital position.

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 4. FINANCIAL RISK MANAGEMENT (Continued)

##### (d) Capital management (continued)

###### *Regulatory Capital – Uganda*

The Bank's objectives when managing capital, which is a broader concept than the 'equity' on the face of the statement of financial position, are:

- To comply with the capital requirements set by the Central Bank;
- To safeguard the Bank's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- To maintain a strong capital base to support the development of its business.

Capital adequacy and the use of regulatory capital are monitored daily by the Bank's management, employing techniques based on the guidelines developed by the Basel Committee, as implemented by the Bank of Uganda (the Authority), for supervisory purposes. The required information is filed with the Authority on a quarterly basis.

The Bank maintains a ratio of common equity tier 1 capital to its risk weighted assets and total regulatory capital to its risk-weighted assets above the minimum levels of 12.5% and 14.5% as established under the Financial Institutions (Capital Adequacy Requirements) Regulations, 2018 and the Financial Institutions (Capital Buffers and Leverage Ratio) Regulations, 2021.

The Central Bank of Uganda requires a bank to maintain at all times:

- Common equity tier 1 capital of not less than 12.5% of its total risk weighted assets, plus sum of risk weighted off-balance sheet items and market risk.
- Total capital of not less than 14.5% of its total risk weighted assets, plus sum of risk weighted off-balance sheet items and market risk.
- Leverage ratio at a minimum of 6%, that is common equity tier 1 as a ratio of total assets plus off balance sheet items.

The regulatory capital requirements are strictly observed when managing economic capital. The Bank's regulatory capital is managed by its Bank Treasury and comprises two tiers:

- Tier 1 capital: permanent shareholder's equity, share premium, prior years' retained profits, net after tax profits current year to date (50% only), general reserves, less goodwill and other intangible assets, current year losses, investment in unconsolidated subsidiaries, deficiencies in provisions for losses, prohibited loans to insiders and other deductions determined by Central Bank
- Tier 2 capital: Revaluation reserves on fixed assets, unencumbered general provisions for losses, hybrid capital instruments and others and subordinated term debt.

The risk-weighted assets are measured by means of a hierarchy of four risk weights classified according to the nature of and reflecting an estimate of the credit risk associated with each asset and counterparty. A similar treatment is adopted for off-balance sheet exposure, with some adjustments to reflect the more contingent nature of the potential losses.

#### 4. FINANCIAL RISK MANAGEMENT (Continued)

##### (d) Capital management (continued)

###### *Regulatory Capital – Uganda – continued*

The Minister of Finance, Planning and Economic Development of the Government of Uganda, in consultation with Bank of Uganda issued the Financial Institutions (Revision of Minimum Capital Requirements) Instrument 2022, as mandated under the Financial Institutions Act, section 26 (5) requiring persons who wish to transact financial institution business in the capacity of a Bank in Uganda:

- To have a minimum paid-up cash capital of not less than Ushs 120 billion by December 31, 2022 and increasing this to Ushs 150 billion, by June 30, 2024.
- To always have the minimum capital funds un-impaired by losses (Core Capital) not less than Ushs 120 billion as at December 31, 2022 and increasing this to not less than Ushs 150 billion, by June 30, 2024.

As at December 31, 2023, the Bank was compliant with both the minimum paid up cash capital and the minimum capital funds unimpaired by losses as indicated below;

<b>i) Minimum paid-up capital requirement</b>	<b>Ushs'000</b>
Required	120,000,000
Available	210,000,000
<b>Surplus</b>	<b>90,000,000</b>
<b>ii) Minimum Capital funds unimpaired by losses</b>	<b>Ushs'000</b>
Required	120,000,000
Available	134,852,109
<b>Surplus</b>	<b>14,852,109</b>

The table below summarises the composition of regulatory capital and the ratios of the Bank for the years ended 31 December 2023 and 2022. During those two years, the Bank complied with all of the externally imposed capital requirements to which it is subject.

\* As defined by the Bank of Uganda

*Regulatory Capital – Mauritius*

Under the BASEL II methodology, Bank of Mauritius has issued guidelines for the measurement of Credit Risk, Market Risk and Operational Risk. The minimum required capital as set by the Bank of Mauritius, under BASEL II guidelines, is a capital to Risk Weighted Assets of 10%.

The Bank's capital management policy is to provide sufficient capital for the banking business to achieve its strategic objectives, taking into account the regulatory, economic and commercial environment in which it operates. The capital adequacy framework is supported by a Board approved Internal Capital Adequacy Assessment Process (ICAAP), which encompasses capital planning for current and future periods, taking into consideration strategic focus and business plan and assessment of all material risks under stress conditions.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 4. FINANCIAL RISK MANAGEMENT (Continued)

##### (d) Capital management (continued)

###### *Regulatory Capital – Mauritius – continued*

The Bank's objectives when managing capital are:

- To comply with the capital requirements set by the regulator;
- To safeguard the Bank's ability to continue its business as a going concern;
- To maximize returns to shareholders and optimize the benefits to stakeholders;
- To maintain a strong capital base to support the development of its business.

The Bank's eligible capital as managed by the Bank's management is divided into two tiers:

1. *Core capital or Tier 1 Capital:* Comprising Share capital, profit and loss, and reserves created by appropriations of retained earnings. The book value of goodwill and other intangible assets is deducted in arriving at core capital; and
2. *Supplementary capital or Tier 2 Capital:* Qualifying perpetual and term subordinated debts, collectively assessed impairment allowances, regulatory reserve, and fair value gains arising on revaluation of holdings of land and buildings and FVOCI equities and debt securities. Investment in subsidiaries, significant investments in non-subsidiary companies and shares, and investments in other banks' equity are deducted 50 % from Tier-1 capital and 50% from supplementary capital to arrive at the eligible capital.

Capital Adequacy and the use of eligible capital are monitored regularly by Management, employing techniques based on the guidelines developed by the Basel Committee, as implemented by Bank of Mauritius for supervisory purposes. The required information is submitted to the Bank of Mauritius on a quarterly basis.

The ratio of its capital to aggregate risk weighted assets being the Capital Adequacy Ratio as at 31 December 2023 was 16.85% (2022 – 17.76%).

#### 5. USE OF ESTIMATES AND JUDGEMENT

##### **Key sources of estimation uncertainty**

###### (a) *Expected credit losses*

The measurement of the expected credit loss allowance for financial assets measured at amortised cost and FVOCI debt instruments is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g. the likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation techniques used in measuring ECL is further detailed in Note 3(f)(iii) which also sets out key sensitivities of the ECL to changes in these elements.

A number of significant judgements are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of ECL;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated ECL; and
- Establishing groups of similar financial assets for the purposes of measuring ECL.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 5. USE OF ESTIMATES AND JUDGEMENT (Continued)

##### **Key sources of estimation uncertainty (continued)**

##### *(b) Income taxes*

Significant estimates are required in determining the liability for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome is different from the amounts that were initially recorded, such differences will impact the income tax balances and deferred tax liability in the period in which such determination is made. (refer to Note 15 and Note 26)

##### *(c) Property and equipment*

Property and equipment is depreciated over its useful life taking into account residual values, where appropriate. The actual lives of the assets and residual values are assessed annually and may vary depending on a number of factors. In reassessing asset lives, factors such as technological innovation, product life cycles and maintenance programs are taken into account which involves extensive subjective judgment. Residual value assessments consider issues such as future market conditions, the remaining life of the asset and projected disposal values. The rates used are set out under accounting policy Note 3(i). Useful lives of property plant and equipment

Property plant and equipment are depreciated over their useful lives. The actual lives of the assets are assessed annually and may vary depending on several factors. Management applies judgement in determining useful lives.

##### *(d) Impairment of goodwill*

The Group tests annually whether goodwill has suffered any impairment, in accordance with the accounting policy 3(j)(ii) and computed in Note 25(a). The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. The CGU discounted cashflows are compared with the net carrying amount plus goodwill to test for impairment triggers. Impairment is required whenever the cashflows are materially lower than carrying value.

##### *(e) Lease term*

The Group makes judgement on whether it is reasonably certain that it will exercise extension options.

##### *(f) Critical accounting judgements in applying the Group's accounting policies*

Critical accounting judgements made in applying the Group's accounting policies include financial asset and liability classification. The Group's accounting policies provide scope for assets and liabilities to be designated at inception into different accounting categories in certain circumstances.

In classifying financial asset at amortized cost, the Group has determined that it has both positive intention and ability to hold the assets until their maturity date as required by the Group's accounting policies.

The classification of financial assets includes the assessment of the business model within which the assets are held and assessment of whether the contractual terms of the financial asset are solely payments of principal and interest on the principal amount outstanding. See Note 3(f)(ii).

Note 24: Impairment testing for CGUs containing goodwill: Key assumptions underlying recoverable amounts.

## **I&M GROUP PLC**

### **NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS** **FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

#### **5. USE OF ESTIMATES AND JUDGEMENT (Continued)**

##### **Key sources of estimation uncertainty (continued)**

*(f) Critical accounting judgements in applying the Group's accounting policies - continued*

Note 36 and Note 37: Recognition and measurement of contingencies: Key assumptions about the likelihood and magnitude of an outflow of resources.

Note 5: measurement of fair value of financial instruments with significant unobservable inputs.

#### **6. FAIR VALUE HEIRARCHY FOR ASSETS CARRIED AT FAIR VALUE**

##### **Accounting classifications at carrying amounts and fair values**

IFRS 7 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources; unobservable inputs reflect the Group's market assumptions. These two types of inputs have created the following fair value hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following sets out the Group's basis of establishing fair values of financial instruments: Investment securities with observable market prices including equity securities are fair valued using that information. Investment securities that do not have observable market data are fair valued either using discounted cash flow method or quoted market prices for securities with similar yield characteristics.

Loans and advances to customers are net of allowance for impairment. The estimated fair value of loans and advances represents the discounted amount of future cash flows expected to be received. Expected cash flows are discounted at current market rates to determine fair value. A substantial proportion of loans and advances are on floating rates and re-price within 12 months, hence, their fair value approximates their carrying amounts. The estimated fair value of deposits with no stated maturity is the amount repayable on demand. Estimated fair value of fixed interest-bearing deposits without quoted market prices is based on discounting cash flows using the prevailing market rates for debts with similar maturities and interest rates. A substantial proportion of deposits mature within 12 months and hence the fair value approximates their carrying amounts.

Cash and balances with Central Banks are measured at amortised cost and their fair value approximates their carrying amount.

A substantial proportion of deposits mature within 12 months and hence the fair value approximates their carrying amounts.

--------------------------------------	------------------	------------------	----------	----------

Fees and commission from contracts with customers is measured based on the consideration specified in a contract with a customer. The Group recognizes revenue when it transfers control over a service to a customer.

The following table provides information about the nature and timing of the satisfaction performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies.

Type of service	Nature of timing of satisfaction of performance, obligations, including significant payment terms	Revenue recognition policies under IFRS 15
Transactional service fees	Consist of fees charged for processing services such as cash management, global payments, clearing, international funds transfer and other trade services	Recognized as/when the associated service is satisfied, which normally occurs at the point in time the service is requested by the customer and provided

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 10. NET FEE AND COMMISSION INCOME (Continued)

Type of service	Nature of timing of satisfaction of performance, obligations, including significant payment terms	Revenue recognition policies under IFRS 15
Deposit-related fees	Consist of service charges on deposit accounts and fees earned from performing cash management activities and other deposit account services.	Fees are recognized in the period in which the related service is provided
Insurance distribution revenue/commission	Commissions earned from third-party insurance companies for marketing and selling insurance policies.	Commissions are recognized in Commissions and fees at the point in time the associated service is fulfilled- when the insurance policy is sold to the policyholder.
Credit card and bank card income	Composed of ATM fees, interchange fees, Issuance fees, annual fees which are earned by card issuers based on purchase sales, and certain card fees, including annual fees. Costs related to customer reward programs and certain payments to partners (primarily based on program sales, profitability and customer acquisitions	Costs related to card reward programs are recognized when the rewards are earned by the cardholders. Payments to partners are recognized when incurred. ATM fees and interchange fees earned and recognized when a customer transacts. Issuance fees on card issue and annual fees on anniversary date.

**FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

**25. INTANGIBLE ASSETS (Continued)**

**(a) Goodwill (continued)**

With respect to goodwill assessment for impairment, no impairment losses have been recognised as the recoverable amounts of the Cash Generating Units (CGUs) were determined to be higher than their carrying amounts. The recoverable amounts have been calculated by discounting the future cash flows expected to be generated from the continuing use of the respective CGUs. The key assumptions used in the calculation of value in use were as follows:

	<b>2023</b>	<b>I&amp;M Bank (T) Limited</b>	<b>I&amp;M Bank (Rwanda) PLC</b>	<b>I&amp;M Burbidge Capital Limited</b>	<b>Giro Limited</b>	<b>Bancassurance Intermediary Limited</b>	<b>I&amp;M Bank (Uganda) Limited</b>

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 25. INTANGIBLE ASSETS (Continued)

##### (a) Goodwill (continued)

The discount rate utilised was the risk free rate on the rate of 5 year government bonds issued by the governments in the respective markets and in the same currency as the cash flows.

These cash flows have been projected for 7 years, based on the approved Business plans of the respective units.

In the opinion of the Directors, there was no impairment of goodwill during the year.

##### **Sensitivity analysis**

The CGUs are sensitive to possible adverse changes in the key assumptions that support the recoverable amount:

**Cash flows:** The medium term plans used to determine the cash flows used in the Value In Use (VIU) calculation rely on macroeconomic forecasts, including interest rates, GDP and unemployment, and forecast levels of market and client activity. Interest rate assumptions impact planned cash flows from both customer income and structural hedge contributions and therefore cash flow expectations are highly sensitive to movements in the yield curve. The cash flows also contain assumptions with regards to the prudential and financial conduct regulatory environment which may be subject to change. Given the current level of economic uncertainty, a 10% reduction in cash flows has been provided to show the sensitivity of the outcome to a change in these key assumptions.

**Discount rate:** The discount rate should reflect the market risk free rate adjusted for the inherent risks of the business it is applied to. Management have identified discount rates for comparable businesses and consider these to be a reasonable estimate of a suitable market rate for the profile of the business unit being tested. The risk that these discount rates may not be appropriate is quantified below and show the impact of a 100 bps change in the discount rate.

**Terminal growth rate:** The terminal growth rate is used to estimate the cash flows into perpetuity based on the expected longevity of the CGU's businesses. The terminal growth rate is sensitive to uncertainties in the macroeconomic environment. The risk that using inflation data may not be appropriate for its determination is quantified below and shows the impact of a 100 bps change in the terminal value.

Depreciation of right to use asset (Note 24)	542,773	464,416
	<u><b>723,301</b></u>	<u><b>640,875</b></u>

##### Extension options

Some leases of office premises contain extension options exercisable by the Group up to one term after the end of the non-cancellable contract period. Where practicable, the Group seeks to include extension options in new leases to provide operational flexibility. The Group assesses at lease commencement date whether it is reasonably certain to exercise the extension options. The Group reassesses whether it is reasonably certain to exercise the options if there is a significant event or significant changes in circumstances within its control.

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 31. LONG TERM DEBT (Continued)

The fair value of the long term borrowings are disclosed in Note 6. Fair values, are based on discounted cash flows using a discount rate based upon the borrowing rate that the Directors expect would be available at the year-end date. The repricing of the borrowings is done either quarterly or biannually based on the individual agreed covenant.

##### Loan movement schedule

	Group		Company	
	2023	2022	2023	2022
	KShs'000	KShs'000	KShs'000	KShs'000
At 1 January	5,763,128	9,516,698	-	-
Payments on interest	( 445,782)	( 393,334)	-	-
Interest payable	331,796	342,226	-	-
Payments on principal	(1,076,978)	(4,760,734)	-	-
Exchange differences	1,166,935	1,058,272	-	-
<b>At 31 December</b>	<b>5,739,099</b>	<b>5,763,128</b>	<b>-</b>	<b>-</b>

Long term borrowings constituted the following:

- (i) TZS 3,250 million facility granted by Tanzania Mortgage Refinance Company Limited (TMRC) in two tranches. TZS 1,800 million granted on 12 August 2022 for a tenure of 5 years and TZS 1,450 million granted on 30 August 2022 for a tenure of 3 years. The interest on the facility repayable quarterly basis and the principal at maturity. The outstanding balance as at 31 December 2023 was TZS 3.25 billion (2022: TZS 3.25 billion). (Tanzania)
- (ii) Long term loan from European Investment Bank of Frw 14.1 billion received in 2014, 2015, 2016 and 2019 at average rate of 9.22% with tenor period of less than 7 years for which repayment amounts are fixed in Rwandan Francs. The outstanding exposure is Frw 5.4 billion (2021: Frw 7.6 billion). They are unsecured loans. (Rwanda)
- (iii) A senior unsecured debt from FMO of USD 25 million at 6.46% per annum with maturity up to July 10, 2027. (Rwanda)
- (iv) During the year, BRD issued a new loan of Frw 11.5billion at average rate of 3.5% for access to finance for Recovery and resilience project. The loan is not secured. (Rwanda)
- (v) Economic recovery fund from National Bank of Rwanda (Economic Recovery Fund facility) at maximum of 2% to establish the framework where I&M Bank (Rwanda) PLC will extend loans to business hardly affected by post-COVID-19 impact and economic distress. The entity has accounted the portion related to Government Grant in accordance with IAS 20 Accounting for Government Grants and Disclosure of Government Assistance amounting to Frw 634Million (2022: Frw 634Million). The entity lends to its customers at average rate of 7%.

<b>At 31 December</b>	<b><u>12,532,190</u></b>	<b><u>11,031,585</u></b>	<b><u>-</u></b>	<b><u>-</u></b>

Subordinated debt comprises:

In Kenya, USD 27,350,000 medium term unsecured subordinated fixed and floating rate notes issued on 14 August 2019 for a tenure of 5 years with redemption on maturity date.

USD 50,000,000 subordinated facility issued on 28 June 2021 by IFC for a tenor of 6 years 9 months with redemption in four consecutive approximately equal instalments starting 15 Sept 2026 and on each interest payment date thereafter until and including 15 Mar 2028.

The subordinated debt would in the event of winding up of the respective companies be subordinated to the claims of depositors and all other creditors. The Group and Company has not had any defaults of principal or interest with respect to these debts.

The fair value of the subordinated debt are disclosed in Note 6. Fair values, are based on discounted cash flows using a discount rate based upon the borrowing rate that the Directors expect would be available at the year-end date. The repricing of the borrowings is done either quarterly or biannually based on agreed loan covenants.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 33. SHARE CAPITAL AND RESERVES (Continued)

(a) **Share capital and share premium – Group and Company (continued)**

The ordinary shares rank equally with regard to the company residual assets and are entitled to receive dividends as declared from time to time and to one vote per share at general meetings of the Company. The par value per share is KShs 1.00.

(b) **Share premium**

Share premium is the amount which the Company raises in excess of the par value/nominal value of the shares. This is disclosed in the statement of changes in equity appearing on pages 49 - 51.

(c) **Revaluation reserve**

The revaluation reserve arises on revaluation of buildings. When revalued property is disposed, the portion of the revaluation reserve that relates to that asset is transferred to retained earnings. This is disclosed in the statement of changes in equity appearing on pages 49 - 51.

(d) **Fair value reserve**

The fair value reserve includes the cumulative net change in the fair value of FVOCI investments, excluding impairment losses, until the investment is derecognised. This is disclosed in the statement of changes in equity appearing on pages 49 - 51.

(e) **Translation reserve**

The translation reserve comprises foreign exchange differences arising from the translation of the financial statements of foreign operations. Details of the Group investments outside Kenya are disclosed in Note 1 of the financial statements. This is disclosed in the statement of changes in equity appearing on pages 49 - 51.

(f) **Statutory credit risk statutory reserve**

Where impairment losses required by legislation or regulations exceed those computed under International Financial Reporting Standards (IFRSs), the excess is recognised as a statutory reserve and accounted for as an appropriation of retained profits and the reverse for reductions. These reserves are not distributable. This is disclosed in the statement of changes in equity appearing on pages 49 - 51.

(g) **Defined benefit reserve**

Bank One Limited (a joint venture for I&M Group PLC) operates a defined benefit scheme. The net obligation is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. The calculation is performed annually by a qualified actuary using the projected unit credit method. The Group share of actuarial gains or losses arising from the calculation are recognised in other comprehensive income.

**35. OFF BALANCE SHEET CONTINGENCIES AND COMMITMENTS - GROUP**

**(a) Legal proceedings**

There were a number of legal proceedings outstanding against the Group as at 31 December 2023. No provisions have been made (2022 – Nil). Management view and professional advice indicates that it is unlikely that any significant loss will crystallize.

**(b) Commitments and financial guarantees**

In the ordinary course of business, banking entities in the Group conduct business involving guarantees, acceptances, and letters of credit. At the period end, the contingent liabilities were as follows:

**Group**

	2023 KShs'000	2022 KShs'000
<b>Contingencies related to:</b>		
Letters of credit	74,273,179	44,723,300
Guarantees	34,829,831	30,970,787
Other credit commitments	27,727,931	23,551,052
	<u>136,830,941</u>	<u>99,245,139</u>
<b>Commitments related to:</b>		
Outstanding spot/forward contracts	51,227,618	44,291,896
	<u>188,058,559</u>	<u>143,537,035</u>

***Nature of contingent liabilities***

*Guarantees* are generally written by a bank to support performance by a customer to third parties. The Group will only be required to meet these obligations in the event of the customer's default.

## I&M GROUP PLC

### NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)

#### 35. OFF BALANCE SHEET CONTINGENCIES AND COMMITMENTS – GROUP (Continued)

##### (b) Commitments and financial guarantees (continued)

###### *Nature of contingent liabilities (continued)*

*Letters of credit* commit a bank to make payment to third parties, on production of documents, which are subsequently reimbursed by customers.

An *acceptance* is an undertaking by a bank to pay a bill of exchange drawn on a customer. The Group expects most acceptances to be presented, and reimbursement by the customer is almost immediate.

*Forward contracts* are arrangements to buy or sell a specified quantity of foreign currency, usually on a specified future date at an agreed rate.

The fair values of the respective currency forwards are carried on the face of the balance sheet.

#### 36. ASSETS PLEDGED AS SECURITY - GROUP

	2023 KShs'000	2022 KShs'000
Group	<u>1,593,075</u>	<u>5,968,322</u>

These are capital commitments on leasehold improvements and digitization initiatives being adopted by the Group.

#### 39. EMPLOYEE SHARE OWNERSHIP PLAN

In 2016, I&M Bank (Rwanda) PLC offered 1% of the existing shares capital of its shares as ESOP shares subscribed to by the eligible employees. Each Beneficiary was entitled to purchase from the Trustee, not earlier than the first anniversary of the IPO Closing Date (the "Vesting Date"), and not later than the fifth anniversary of the IPO Closing date newly issued Share of the Bank payable in full at the time of the purchase at the price equal to the Offer Price per share.

The eligibility was that employees were to continue to serve as Employees of the Bank for a period of thirty six (36) months from the date of allotment, had permanent contracts and with minimum total service time of one year as at 31st December 2016.

The objectives of the ESOP are as follows:

- To enhance employee loyalty and retention.
- To have employee participation in the shareholding of the Bank thereby promoting their economic interest in its success.

## **I&M GROUP PLC**

### **NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS** **FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

#### **39. EMPLOYEE SHARE OWNERSHIP PLAN (Continued)**

— To enhance employee motivation and productivity.

As at 31 December 2023 outstanding shares for staff who had exited the bank prior to the completion of vesting period was Frw'000 – 149,961 (KShs'000 – 18,700) (2022 – Frw'000 – 149,961 (KShs'000 - 17,159)). The amounts will be cleared through rights or bonus issue to existing staff. No amount will be written off hence no profit or loss impact.

#### **40. EVENTS AFTER REPORTING DATE**

There are no material events or circumstances that have arisen between the reporting date and the date of this report.

#### **41. CONTINGENT LIABILITIES**

On completion of an excise duty audit by Kenya Revenue Authority (KRA), covering the period from 1 January 2014 to 30 September 2018, KRA raised an additional excise duty assessment for an amount KShs 283,512,550 on I&M Bank LIMITED on 17 January 2019. I&M Bank LIMITED objected to all items which were in the Directors' view erroneously assessed. The KRA subsequently confirmed the assessment on 15 April 2019 for an amount of KShs 231,220,414. I&M Bank LIMITED lodged an appeal against this assessment to the Tax Appeal Tribunal. The matter was heard on 16 February 2021 and the tribunal ruled in favour of the bank on 4 March 2022. The KRA appealed the decision of the tax appeal tribunal and the matter is currently in the High Court. Based on the prevailing Tax Procedure Act that defines, inter alia, timeframes in conduct of tax assessments, the Directors in consultation with I&M Bank LIMITED's legal and tax advisors are of the opinion the ruling will be in I&M Bank LIMITED's favour.

On completion of withholding tax and value added tax duty audit by Kenya Revenue Authority (KRA), covering the period from 1 January 2015 to 31 December 2017, KRA raised an additional assessment for an amount of KShs 395,262,008 on I&M Bank LIMITED on 14 December 2020. I&M Bank LIMITED objected on 13 January 2022 to all items which were in the Directors' view erroneously assessed. The KRA subsequently issued an invalidation notice on 27 May 2021. I&M Bank LIMITED lodged an appeal against this assessment to the Tax Appeal Tribunal. The tribunal issued a ruling in favour of I&M Bank LIMITED on 11 February 2022. The KRA has appealed the decision of the tax appeal tribunal and the matter is currently in the High Court. Based on the prevailing Tax Procedure Act that defines, inter alia, timeframes in conduct of tax assessments, the Directors in consultation with I&M Bank LIMITED's legal and tax advisors are of the opinion the ruling will be in I&M Bank LIMITED's favour.

#### **42. OTHER DISCLOSURES**

##### **(a) Operational risk**

The overall responsibility of managing operational risks - the risk arising from failed or inadequate internal processes, people, systems and external events - is vested with the Board of Directors. The Board's of the various subsidiaries through their Board Risk Committee or equivalent, issues policies that guide management on appropriate practices of operational risk mitigation.

An independent Risk Manager assures the Board Risk Committee or equivalent of the implementation of the said policies.

The following are key measures that the Group undertakes in managing operational risk:

## **I&M GROUP PLC**

### **NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS** **FOR THE YEAR ENDED 31 DECEMBER 2023 (CONTINUED)**

#### **42. OTHER DISCLOSURES (Continued)**

##### **(a) Operational risk (continued)**

Documentation of procedures and controls, including regular review and updates to reflect changes in the dynamic business environment.

Appropriate segregation of duties, including the independent authorisation of transactions

- Reconciliation and monitoring of transactions
- Compliance with regulatory and other legal requirements
- Reporting of operational losses and ensuring appropriate remedial action to avoid recurrence.
- Development and implementation of Business Continuity and Disaster Recovery Plans
- Training and professional development of employees to ensure they are well equipped to identify and mitigate operational risks in a timely manner.
- Establishment of ethical practices at business and individual employee's level.
- Implementation of Risk mitigation parameters, including insurance where this is considered effective.

The entire operational risk management framework is subjected to periodic independent audits (internal) in order for the Group to obtain an independent opinion on the effectiveness and efficiency of the framework. Further, the findings of the Internal Audit department are reviewed by the Board Audit Committee or equivalent committees of the respective subsidiaries and recommendations made implemented in line with the agreed timeframe.

##### **(b) Compliance and regulatory risk**

Compliance and regulatory risk includes the risk of bearing the consequences of non-compliance with regulatory requirements. The compliance function is responsible for establishing and maintaining an appropriate framework of Group compliance policies and procedures. Compliance with such policies and procedures is the responsibility of all managers.

##### **(c) Environmental and social risks**

Environmental and social risks are the risks that the Group could bear the consequences of socio-environmental fall-out of transactions. Such risks could arise from failure of the Group to assess the impacts of activities (of both the group and its clients) which could harm the environment or have negative social impact.

The Group is aware that it has a responsibility to ensure that its internal practice and its lending activities do not have negative environmental and social impacts and is thus committed to ensure that such risks are sufficiently managed through its environmental and social management policy and by adopting the country's labour and environmental laws.

The Group also adheres to international best practice i.e. International Finance Corporation (IFC) performance standards and International Labour Organisation (ILO) standards, as ratified by the Kenya government and Governments of the various jurisdictions in which the Group operates. An environmental and social management system is being put in place to ensure due diligence and monitoring of the environmental and social risk is done efficiently. Compliance to these laws is monitored by the compliance function.

The Directors are responsible for selection and disclosure of the Group's critical accounting policies and estimates and the application of these policies and estimates.

## **I&M GROUP PLC**

#### **42. OTHER DISCLOSURES (Continued)**

##### **(d) Climate-related risks**

The Group is acutely aware of the substantial impacts climate change can have on both the financial and non-financial aspects of our operations, strategic decisions, and planning. In response, we are purposefully aligning our efforts with both national and international climate goals, such as the Paris Agreement and Nationally Determined Contributions (NDC), across the regions where we operate.

With sustainability as a central focus, we are committed to implementing recommendations from the IFRS S2 on climate related risk management, while also staying responsive to evolving standards and frameworks, such as the Taskforce on Nature-related Financial Disclosures (TNFD).

Our governance of climate-related risks and opportunities is seamlessly integrated within the Group's enterprise risk management framework. This integration allows us to manage climate risks not only as standalone issues but also in their intersections with conventional risks. Through these efforts, we have developed comprehensive strategic objectives that incorporate climate risk considerations into decision-making processes across all business operations.

The Board of Directors plays a pivotal role in overseeing the implementation of our climate risk project for 2023/2024, underscoring our firm commitment to integrating climate-related risks and opportunities into the Group's business strategies. This commitment is evidenced by both Board oversight and management responsibility, ensuring proactive measures are in place to mitigate and adapt to the impacts of climate change across our value chain. Constant monitoring and performance assessment against climate-related targets further demonstrate our dedication to this cause.

##### **(e) Environmental, Social and Governance (ESG) Principles**

The Group is committed to a profound understanding and active management of Environmental, Social, and Governance (ESG) risks and opportunities. This commitment stems from its recognition of the significant impact that nature, climate change, social inequalities, and environmental degradation have on its operations and the broader community. We see these factors not only as potential threats to business resilience but also as challenges to its capability to support and invest in vulnerable sectors. This has led the Group to underscore the critical importance of sustainable business practices, emphasizing environmental stewardship, social responsibility, and ethical governance as core elements of its operational and strategic blueprint.

The integration of ESG and climate considerations into the enterprise risk management framework marks a significant step in reinforcing our dedication to cultivating a risk-aware culture. This is achieved through several key initiatives:

- Establishing a robust governance structure to oversee ESG risks and opportunities, ensuring accountability across our four lines of defense model.
- Formulating and refining guidelines to adeptly identify, assess, measure, and monitor ESG risks within the Group.
- Defining essential ESG risk metrics, alongside Key Performance Indicators (KPIs) and Key Risk Indicators (KRIs), to ensure comprehensive risk monitoring and value enhancement.
- Enhancing the existing ESG risk assessment processes across our value chain, ensuring a deep integration of ESG considerations.
- Promoting an ESG-aware culture throughout the Group through targeted training and awareness initiatives.

#### **42. OTHER DISCLOSURES (Continued)**

##### **(e) Environmental, Social and Governance (ESG) Principles (continued)**

Our strategic approach to mapping out and addressing ESG risks and opportunities is designed to support sustainable business practices fundamentally. This approach is aligned with our ambitious goal to positively impact 10 million lives from 2024 to 2026. At the heart of this goal is our commitment to providing financial products and services that bolster green investments, specifically focusing on renewable energy, energy efficiency, e-mobility, and agriculture, among other sectors.

Moreover, we are actively expanding our range of lending products, specifically tailored to address the needs of socially and demographically diverse groups, thereby enhancing financial inclusion for underserved communities.

A tangible manifestation of this commitment is the strategic expansion of I&M Bank Kenya's branch network, designed to improve accessibility to our banking services.

As we scale our operations, our focus is broadening to include the optimization of sustainable operations through careful resource management, the adoption of sustainable procurement practices, and the empowerment of communities via the I&M Foundation and CSR initiatives across our subsidiaries. To ensure positive environmental and social outcomes, we are investing in ongoing training programs to boost our staff's ability to effectively manage both emerging and existing ESG and climate-related risks and opportunities.

We adopt a collaborative approach to ESG and climate risk management, recognizing our collective responsibility towards social inclusivity and environmental sensitivity in every facet of our business operations. This collaborative stance is geared towards fostering information sharing, ensuring balanced and uniform reporting, and delivering tangible outcomes that contribute to sustainable development. Central to our strategy is the adherence to international standards and guidelines, including the UN Global Compact, IFC performance standards, ILO labor conventions, and established sustainability and climate risk reporting guidelines, such as the IFRS SI & S2. Moreover, our ESG and climate risk management objectives are in line with the Nationally Determined Contributions (NDCs) specific to our operational markets, the Paris Agreement, and other relevant national and international policy frameworks.

##### **Sustainable Finance Practices**

The Group recognizes sustainable lending practices as a cornerstone of our day-to-day operations. This recognition is evidenced by the integration of an Environmental and Social (E&S) risk management system into the credit appraisal process. Such integration ensures that E&S risks are systematically evaluated alongside other risks before any credit facility disbursement, heightening customer awareness of our E&S standards. This heightened awareness has led to improved E&S performance in our operations, aligning with regulations and strengthening our relationships with customers. We are committed to assisting our customers in addressing non-conformities and promoting the adoption of best industry practices.

The incorporation of E&S risk and opportunity management has spurred business growth, allowing us to develop customized products and services centered on positive social and environmental outcomes. Our sustainable finance initiatives include providing facilities to support the installation of Effluent Treatment Plants for water treatment and recycling, as well as facilitating solar-related energy infrastructure to ensure energy efficiency. This symbiotic relationship has fostered mutual business growth and enhanced environmental and social practices, contributing to the protection of natural resources, the utilization of renewable energy sources, and the reduction of our overall environmental footprint and operational costs.
